FOR FURTHER INFORMATION CONTACT: Michael Echols, NSTAC Alternate Designated Federal Officer, Department

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92-463). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications policy.

Agenda: The committee will meet in open session to receive a briefing on the Federal Government's current research and development priorities as they relate to cybersecurity and NS/EP communications. Additionally, there will be a panel discussion on the nationwide public safety broadband network (NPSBN). Panelists will discuss the current implementation status of the NPSBN, including current initiatives underway with the First Network Authority Board. The NSTAC members will deliberate and vote on their report, *NSTAC Report to the President on the National Security and Emergency Preparedness Implications of the Nationwide Public Safety Broadband Network*, and will be briefed on the committee's progress regarding its report on secure government communications. Lastly, the NSTAC will receive feedback from the Executive Office of the President regarding the progress of the Government's implementation of NSTAC recommendations from the 2012 *NSTAC Report to the President on Cloud Computing*.

The committee will meet in a closed session to hear a classified briefing regarding cybersecurity threats and to discuss future studies based on Government's security priorities and perceived vulnerabilities.

Basis for Closure: In accordance with 5 U.S.C. 552b(c), Government in the *Sunshine Act*, it has been determined that two agenda items require closure as the disclosure of the information would not be in the public interest.

The first of these agenda items, the classified briefing, will provide members with context on nation-state capabilities and strategic threats. Such threats target national communications infrastructure and impact industry's long-term competitiveness and growth, as well as the Government's ability to mitigate threats. Disclosure of these threats would provide criminals who wish to intrude into commercial and Government networks with information on potential vulnerabilities and mitigation techniques, weakening existing cybersecurity defense tactics. This briefing will be classified at the Top Secret level, thereby exempting

disclosure of the content by statute. Therefore, this portion of the meeting is required to be closed pursuant to 5 U.S.C. § 552b(c)(1)(A).

The second agenda item, the discussion of potential NSTAC study topics, will address areas of critical cybersecurity vulnerabilities and priorities for Government. Government officials will share data with NSTAC members on initiatives, assessments, and future security requirements across public and private networks. The data to be shared includes specific vulnerabilities within cyberspace that affect the nation's communications and information technology infrastructures and proposed mitigation strategies. Disclosure of this information to the public would provide criminals with an incentive to focus on these vulnerabilities to increase attacks on our cyber and communications networks. Therefore, this portion of the meeting is likely to significantly frustrate implementation of proposed DHS actions and is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

The FACA requires that notices of meetings of advisory committees be announced in the **Federal Register** 15 days prior to the meeting date. However, this notice of the NSTAC meeting is being published in the **Federal Register** on May 10, 2013, 12 days prior to the meeting due to the immediate need for NSTAC's members to receive a cyber-threat briefing. Notwithstanding the difficulties that delayed publication, this NSTAC meeting must occur. The national security threat that Distributed Denial of Service/Destructive Malware represent is increasing in sophistication and severity and the timing of this information is critical. Although the meeting notice was published in the **Federal Register** late, the agenda will be published on the DHS Web site: www.dhs.gov/nstac and an email will be sent out to the NSTAC Members.

Dated: May 8, 2013.

Michael A. Echols,

Alternate Designated Federal Officer for the NSTAC.
