Office of the Secretary

Science and Technology Reinvention Laboratory Personnel Management Demonstration Project, Department of the Army, Army Research, Development and Engineering Command, Edgewood Chemical Biological Center (ECBC)

AGENCY: Office of the Deputy Under Secretary of Defense (Civilian Personnel Policy), (DUSD (CPP)), Department of Defense (DoD).

ACTION: Notice to make changes to the ECBC **Federal Register** notice, published on December 29, 2009 (74 FR 68936-68966).

SUMMARY: Section 342(b) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 1995, as amended by section 1109 of NDAA FY 2000 and section 1114 of NDAA FY 2001, authorizes the Secretary of Defense to conduct personnel demonstration projects at Department of Defense (DoD) laboratories designated as Science and Technology Reinvention Laboratories (STRs). The above-cited legislation authorizes DoD to conduct demonstration projects to determine whether a specified change in personnel management policies or procedures would result in improved Federal personnel management. This notice makes changes to the ECBC Personnel Management Demonstration Project. It includes revisions to the annual review for supervisory/team leader base pay adjustments and adds clarification of the waiver to 5 U.S.C. 7512(4), amends procedures for recruiting and filling positions above the minimum of the pay band; and eliminates within grade increase (WGI) buy-ins for certain personnel actions.

DATES: This notice may be implemented beginning on the date of publication.

SUPPLEMENTARY INFORMATION:

1. Background

The final plan for the ECBC personnel demonstration project was published in the **Federal Register** on December 29, 2009 (74 FR 68936-68966). The ECBC demonstration project involves: (1) Two appointment authorities (permanent and modified term); (2) extended probationary period for newly hired engineering and science employees; (3) pay banding; (4) streamlined delegated examining; (5) modified reduction-in-force (RIF) procedures; (6) simplified job classification; (7) a pay-for-performance based appraisal system; (8) academic degree and certificate training; (9) sabbaticals; and (10) a Voluntary Emeritus Corps.

2. Overview

With over one year of implementation experience, ECBC has recognized the need for several changes to the original project plan. This amendment addresses those changes and adds clarification of the waiver to 5 U.S.C. chapter 75, section 7512(4). There are three changes being made to the final project plan published December 29, 2009. First, the supervisory/team leader pay adjustments are currently reviewed annually based solely on the appraisal scores for the performance element, Team Project Leadership or Supervisor (EEO). During the annual review, this change incorporates the original criteria used during the pay adjustment approval process as well as the appraisal scores for the performance element Team Project Leadership or Supervisor (EEO). Decreases in the supervisory/team leader pay adjustments can be for any amount (including the full amount) of the current supervisory/team leader pay adjustment and will not be considered an adverse action. Second, during the hiring process, qualifications required for all positions are currently tied to the lowest level of the pay band. This change allows for hiring in the middle or higher end of the pay band for those positions that warrant experience and/or skills in the intermediate or journeyman level of the pay band. And third, the within-grade buy-in is currently provided for employees who enter the demo by lateral transfer, reassignment, or realignment. This change will eliminate the within-grade buy-in for those employees as other pay flexibilities already in place allow for other compensation options.
