

interruption.³⁶ Further, the Commission notes that the Exchange states that it prohibits the distribution of material, non-public information by its employees.³⁷ Finally, with respect to the Index and Sub-Indexes, Standard & Poor's is not a broker-dealer, is not affiliated with a broker-dealer, and has implemented procedures designed to prevent the use and dissemination of material, non-public information regarding the Index and Sub-Indexes.

The Exchange further represents that the Shares are deemed to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. In support of this proposal, the Exchange has made representations, including:

(1) For initial and/or continued listing of the Shares, the Funds must be in compliance with Exchange Rule 14.11(f) and Rule 10A-3 under the Act.³⁸

(2) The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions.

(3) The Exchange's surveillance procedures applicable to derivative products, which include TIRs, are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws. The Exchange is able to obtain information via the ISG from other exchanges that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.³⁹ In addition, for components traded on exchanges, not more than 10% of the weight of a Fund's portfolio in the aggregate shall consist of components whose principal trading market is not a member of ISG or is a market with which the Exchange does not have a comprehensive surveillance sharing agreement. All Futures Contracts will be traded on a trading market that is a member of ISG or is a market with which the Exchange has a comprehensive surveillance sharing agreement.

(4) Prior to the commencement of trading of the Shares, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, BATS Rule 3.7 provides that, in recommending transactions in the Shares, a Member

must have reasonable grounds for believing that (a) the recommendation is suitable for a customer given reasonable inquiry concerning the customer's investment objectives, financial situation, needs, and any other information known by such Member, and (b) the customer can evaluate the special characteristics, and is able to bear the financial risks, of an investment in the securities. In connection with the suitability obligation, the Circular will also provide that Members must make reasonable efforts to obtain the following information: (a) The customer's other securities holdings; (b) the customer's financial situation and needs; (c) the customer's investment objectives; and (d) such other information used or considered to be reasonable by such Member or registered representative in making recommendations to the customer.

(5) Each Fund will seek to achieve its investment objective by investing, under normal market circumstances, in exchange-traded Futures Contracts. In the event position accountability rules or position limits with respect to a Futures Contract are reached with respect to a Fund, the Sponsor may, in its commercially reasonable judgment, cause such Fund to obtain exposure through swaps whose value is derived from the level of the Index, a Sub-Index, one or more Index Components, or, in the case of currency-based Financial Futures Contracts, the exchange rates underlying such Financial Futures Contracts or invest in other futures contracts or swaps if such instruments tend to exhibit trading prices or returns that correlate with the Index, the Sub-Indexes, or any Index Component and will further the investment objective of the Funds. The Funds may also invest in swaps if the market for a specific Futures Contract experiences emergencies (e.g., natural disaster, terrorist attack, or an act of God) or disruptions (e.g., a trading halt or a flash crash) that would prevent the Funds from obtaining the appropriate amount of investment exposure to the affected Futures Contracts or other futures contracts directly.

(6) To the extent practicable, the Funds will invest in swaps cleared through the facilities of a centralized clearing house. In addition, the Sponsor will also attempt to mitigate the Funds' credit risk by transacting only with large, well-capitalized institutions using measures designed to determine the creditworthiness of a counterparty. The Sponsor will take various steps to limit counterparty credit risk, as described in the Registration Statement.

(7) The anticipated minimum number of Shares for each Fund to be outstanding at the start of trading will be 100,000 Shares.

(8) The NAV per Share will be calculated daily and made available to all market participants at the same time. This approval order is based on all of the Exchange's representations and description of the Funds, including those set forth above and in the Notice.⁴⁰

For the foregoing reasons, the Commission finds that the proposed rule change to amend Rule 14.11 and to list and trade the Shares pursuant to Rule 14.11, as proposed to be amended, is consistent with Sections 6(b)(5) of the Act⁴¹ and the rules and regulations thereunder applicable to a national securities exchange.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁴² that the proposed rule change (SR-BATS-2012-044) be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁴³

Kevin M. O'Neill,

Deputy Secretary.
