

of intertidal and subtidal hardbottom in Reach 8 and 1.05 acres of nearshore hardbottom in Reaches 9 and 10 based on in-water surveys conducted in 2010 and 2012, respectively.

e. *Alternatives.* An evaluation of alternatives to the Applicants' Proposed Action initially being considered includes a No Action alternative; beach nourishment and dune restoration through filling activities, groins, upland coastal structural reinforcement/replacement, and combinations of these alternatives; alternatives that would avoid, minimize, and mitigate impacts to the aquatic resources; alternative practices or analysis methods for minimizing or evaluating cumulative effects of shoreline stabilization; and other reasonable alternatives that will be developed through the project scoping process which may also meet the identified purpose and need.

f. *Issues.* The following issues have been identified for analysis in the DEIS. This list is preliminary and is intended to facilitate public comment on the scope of the DEIS. The DEIS will consider the effects on Federally listed threatened and endangered species, Essential Fish Habitat, cumulative impacts, geology/soils, environmental justice, socioeconomic issues, traffic/circulation, noise/vibration, aesthetics, general environmental concerns, wetlands and other aquatic resources, historic properties, cultural resources, fish and wildlife values, recreation, air quality, water quality, considerations of property ownership, sediment budget, in general, the needs and welfare of the people, and other issues identified through scoping, public involvement, and interagency coordination. At the present time, the primary areas of concern are the loss of hardbottom and coral habitat, adequate characterization of impacts, mitigation of the loss of aquatic resources, the proposed projects' effect on fisheries and essential fish habitat and on Federally-listed threatened and endangered species, the potential effect of structures on downdrift beaches, and potential cumulative effects. The issues of concern and the methods used to evaluate those issues will be defined through the scoping process.

g. *Scoping Process.* CEQ regulations (40 CFR 1501.7) require an early and open process for determining the scope of an EIS and for identifying significant issues related to the Proposed Action. The Corps is furnishing this notice to advise other Federal and State agencies, affected federally recognized Tribes, and the public of our intentions. This notice announces the initiation of a 45-day scoping period which requests the

public's involvement in the scoping and evaluation process of the DEIS. Stakeholders will be notified through advertisements, public notices and other means. All parties who express interest will be given an opportunity to participate in this process. The process allows the Corps to obtain suggestions and information on the scope of issues and an opportunity to provide reasonable alternatives to be included in the Draft EIS. (See **DATES** and **ADDRESSES** for meeting schedules)

h. *Public Involvement.* The Corps invites Federal agencies, American Indian Tribal Nations, state and local governments, and other interested private organizations and parties to attend the public scoping meetings and provide comments in order to ensure that all significant issues are identified and the full range of issues related to the permit request are addressed.

i. *Coordination.* The Proposed Action is being coordinated with a number of Federal, state, regional, and local agencies including but not limited to the following: U.S. Fish and Wildlife Service, U.S. National Marine Fisheries Service, U.S. Environmental Protection Agency, Florida Department of Environmental Protection, Florida State Historic Preservation Officer, local cities, and other agencies as identified in scoping, public involvement, and agency coordination.

j. *Agency Role.* The Corps will be the lead agency for the EIS. The Corps expects to receive input and critical information from the U.S. Fish and Wildlife Service, U.S. National Marine Fisheries Service, U.S. Environmental Protection Agency, and other federal, state, and local agencies.

k. *Availability of the Draft EIS.* The Corps currently expects the DEIS to be made available to the public by April 2014. A public meeting will be held during the public comment period for the DEIS. Written comments will be accepted at the meeting.
