Agricultural Marketing Service

Title: Export Fruit Regulations.

OMB Control Number: 0581-0143.

Summary of Collection: Fresh apples and grapes grown in the United States shipped to any foreign destination must meet minimum quality and other requirements established by regulations issued under the Export Apple Act (7 CFR Part 33) and the Export Grape and Plum Act (7 CFR Part 35). These Acts were designed to promote the foreign trade of the United States in apples and grapes; to protect the reputation of these American-grown commodities; and to prevent deception or misrepresentation of the quality of such products moving in foreign commerce. Plum provisions in the marketing order were terminated in 1991. The regulation issued under the Export Grape and Plum Act (7 CFR Part 35) cover fresh grapes grown in the United States and shipped to foreign destinations, except Canada and Mexico. Apples exported to Canada and Mexico are required to first be inspected for minimum grade requirements.

Need and Use of the Information: Persons who ship fresh apples and grapes grown in the U.S. to foreign destinations must have such shipment inspected and certified by Federal or Federal-State Inspection Service (FSIS) inspectors. Agriculture Marketing Service administers the FSIS. Official FSIS inspection certificates and phytosanitary certificates issued by USDA's Animal and Plant Health Inspection Service provide the needed information for USDA. Export carriers are required to keep on file for three years copies of inspection certificates for apples and grapes.
