

**DEPARTMENT OF ENERGY****10 CFR Chs. II, III, and X****48 CFR Ch. 9****Semiannual Regulatory Agenda****AGENCY:** Department of Energy.**ACTION:** Notice of semiannual regulatory agenda.

**SUMMARY:** The Department of Energy (DOE) has prepared and is making available its portion of the semiannual Unified Agenda of Federal Regulatory and Deregulatory Actions (Agenda) pursuant to Executive Order 12866, "Regulatory Planning and Review," and the Regulatory Flexibility Act.

**SUPPLEMENTARY INFORMATION:** The Agenda is a government-wide compilation of upcoming and ongoing

regulatory activity, including a brief description of each rulemaking and a timetable for action. The Agenda also includes a list of regulatory actions completed since publication of the last Agenda. The Department of Energy's portion of the Agenda includes regulatory actions called for by the Energy Policy Act of 2005, the Energy Independence and Security Act of 2007, and programmatic needs of DOE offices.

The Internet is the basic means for disseminating the Agenda and providing users the ability to obtain information from the Agenda database. DOE's entire spring 2013 Agenda can be accessed online by going to: [www.reginfo.gov](http://www.reginfo.gov). Agenda entries reflect the status of activities as of approximately July 31, 2013.

Publication in the **Federal Register** is mandated by the Regulatory Flexibility

Act (5 U.S.C. 602) only for Agenda entries that require either a regulatory flexibility analysis or periodic review under section 610 of that Act. DOE's regulatory flexibility agenda is made up of five rulemakings setting either energy efficiency standards or test procedures for the following products:

Battery chargers and external power supplies (energy efficiency standards)  
Commercial Refrigeration Equipment (energy efficiency standards)  
Distribution Transformers (energy efficiency standards)  
Residential refrigerators, refrigerator-freezers, and freezers (test procedures)  
Walk-in coolers and freezers (energy efficiency standards)

Signed in Washington, DC on June 26, 2013.

**Gregory H. Woods,**  
*General Counsel.*

**ENERGY EFFICIENCY AND RENEWABLE ENERGY—PROPOSED RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
126 .....	Energy Conservation Standards for Walk-In Coolers and Walk-In Freezers .....	1904-AB86
127 .....	Energy Conservation Standards for Commercial Refrigeration Equipment .....	1904-AC19
128 .....	Test Procedures for Residential Refrigerators, Refrigerator-Freezers, and Freezers .....	1904-AC76

**ENERGY EFFICIENCY AND RENEWABLE ENERGY—FINAL RULE STAGE**

Sequence No.	Title	Regulation Identifier No.
129 .....	Energy Efficiency Standards for Battery Chargers and External Power Supplies .....	1904-AB57

130 .....	Energy Efficiency Standards for Distribution Transformers .....	1904-AC04

**DEPARTMENT OF ENERGY (DOE)***Energy Efficiency and Renewable Energy (EE)*

## Proposed Rule Stage

**126. Energy Conservation Standards for Walk-in Coolers and Walk-in Freezers**

*Legal Authority:* 42 U.S.C. 6313(f)(4)

*Abstract:* The Energy Independence and Security Act of 2007 amendments to the Energy Policy and Conservation Act require that DOE establish maximum energy consumption levels for walk-in coolers and walk-in freezers and directs the Department of Energy to develop energy conservation standards that are technologically feasible and economically justified.

*RIN:* 1904-AB86

**127. Energy Conservation Standards for Commercial Refrigeration Equipment**

*Legal Authority:* 42 U.S.C. 6313(c)(5)  
*Abstract:* DOE is reviewing and updating energy conservation standards, as required by the Energy Policy and Conservation Act, to reflect technological advances. All amended standards must be technologically feasible and economically justified. As required by EPCA, DOE published previously a final rule establishing energy conservation standards for ice-cream freezers, self-contained

commercial refrigerators, freezers, and refrigerator-freezers without doors, for equipment manufactured after January 1, 2012. (74 FR 1092, Jan. 9, 2009) DOE is required to issue a final rule for this second review of energy conservation standards for commercial refrigeration equipment no later than January 1, 2013.

*RIN:* 1904-AC19

**128. Test Procedures for Residential Refrigerators, Refrigerator-Freezers, and Freezers**

*Legal Authority:* 42 U.S.C. 6293(b)(2)

*Abstract:* DOE is conducting a rulemaking to amend the existing test procedures for residential refrigerators, refrigerator-freezers, and freezers in order to clarify a number of testing issues and to add a test for measuring ice maker energy use.

*Energy Efficiency and Renewable Energy (EE)*

Final Rule Stage

**129. Energy Efficiency Standards for Battery Chargers and External Power Supplies**

*Legal Authority:* 42 U.S.C. 6295(u)

*Abstract:* In addition to the existing general definition of “external power supply,” the Energy Independence and Security Act of 2007 (EISA) defines a “class A external power supply” and sets efficiency standards for those products. EISA directs DOE to publish a final rule to determine whether the standards set for class A external power supplies should be amended. EISA also requires DOE to issue a final rule prescribing energy conservation standards for battery chargers, if technologically feasible and economically justified or to determine that no energy conservation standard is technically feasible and economically justified.

Completed Actions

**130. Energy Efficiency Standards for Distribution Transformers**

*Legal Authority:* 42 U.S.C. 6317(a); 42 U.S.C. 6313(a)(6)(C)

*Abstract:* The current distribution transformer efficiency standards for medium-voltage-transformers apply to transformers manufactured or imported on or after January 1, 2010, and to low-voltage, dry type transformers manufactured or imported on or after January 1, 2007. As a result of a settlement agreement, DOE agreed to conduct a review of the standards for liquid-immersed and medium-voltage dry-type distribution transformers to determine if, pursuant to EPCA, the standards for these products need to be amended. As a result of the review, DOE published in the **Federal Register** a notice of proposed rulemaking which included new proposed standards for these products as well as low-voltage, dry-type transformers. Under the settlement agreement, DOE is obligated to publish in the **Federal Register**, no later than October 1, 2012, a final rule including any amendments to the standards for liquid-immersed and medium-voltage dry-type distribution transformers.
