Section 251(b)(2) of the Communications Act of 1934, as amended, requires LECs to "provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission." Through the LNP process, consumers have the ability to retain their phone number when switching telecommunications service providers, enabling them to choose a provider that best suits their needs and enhancing competition. In the *Porting Interval Order and Further Notice*, the Commission mandated a one business day porting interval for simple wireline-

to-wireline and intermodal port requests.

The information collected in the standard local service request data fields is necessary to complete simple wireline-to-wireline and intermodal ports within the one business day porting interval mandated by the Commission and will be used to comply with Section 251 of the Telecommunications Act of 1996.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: Survey for Urban Rates for Fixed Voice and Fixed Broadband Residential Services.

Form Number: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents: 1,000 respondents; 1,000 responses.

Estimated Time per Response: 3.5 hours.

Frequency of Response: Annual reporting requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. sections 254 of the Communications Act of 1934, as amended.

Total Annual Burden: 3,500 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The information being collected is not confidential and no assurances of confidentiality are being provided.

Needs and Uses: The Commission will submit this new collection to the OMB for approval in order to obtain the three year clearance from them.

To implement certain reforms to universal service support, the Commission's Wireline Competition Bureau and the Wireless Telecommunications Bureau in an Order, DA 13–598, adopted the form and content for a survey of urban rates for fixed voice and fixed broadband residential services. The information collected in this survey will be used to establish a rate floor that eligible telecommunications carriers (ETCs) receiving high-cost loop support (HCLS) or frozen high-cost support must meet to receive their full support amounts and to help ensure that universal service support recipients offering fixed voice

and broadband services do so at reasonably comparable rates to those in urban areas.

Specifically, the Commission directed the Bureaus to “develop a methodology” to survey a representative sample of facilities-based fixed voice service providers taking into account the relative categories of fixed voice providers as determined in the most recent FCC Form 477 data collection.

“The Commission also delegated authority to conduct an annual survey, in order to specify an appropriate minimum for usage allowances and to adjust such a minimum over time.”
