

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule, which satisfies certain infrastructure requirements of section 110(a)(2) of the CAA for the 2010 NO₂ NAAQS for the Commonwealth of Virginia, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

SUPPLEMENTARY INFORMATION:

Previous Federal Actions

We established a nonessential experimental population of Mexican wolves in 1998 (63 FR 1752, January 12, 1998) pursuant to section 10(j) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

On August 7, 2007, we published a notice of intent in the **Federal Register** (72 FR 44065) to initiate the planning process for preparation of an environmental impact statement (EIS), pursuant to the National Environmental Policy Act (NEPA 42 U.S.C. 4321 *et*

seq.), to modify our Mexican wolf nonessential experimental population designation (63 FR 1752, January 12, 1998). We held 12 public informational sessions in the communities and on the dates listed in our scoping report, which is available at <http://www.fws.gov/southwest/es/mexicanwolf/documents.cfm> and at <http://www.regulations.gov> at Docket No. FWS–R2–ES–2013–0098.

On June 13, 2013, we published a proposed rule to revise our existing Mexican wolf nonessential experimental population designation (78 FR 35719).

Background

The proposed rule (78 FR 35719, June 12, 2013), together with the proposed implementation of a soon-to-be-released management plan for Mexican wolves in areas of Arizona and New Mexico that are outside of the experimental population area, form the basis of the proposed action of our EIS. The EIS will consider reasonable alternatives for revisions to the geographic boundaries and management regulations of the current Mexican wolf nonessential experimental population (63 FR 1752, January 12, 1998), and the implementation of a management plan for the Mexican wolf in those portions of Arizona and New Mexico external to the Mexican Wolf Experimental Population Area (MWEPA). The EIS will analyze the environmental consequences of a range of alternatives to the proposed action that include: revisions to the geographic boundaries of the MWEPA and Blue Range Wolf Recovery Area (BRWRA), modifications to the regulations for management of the nonessential experimental population of Mexican wolves, and implementation of a management plan for Mexican wolves in areas of Arizona and New Mexico external to the MWEPA.

The Service will act as the Lead Federal Agency responsible for completion of the EIS (40 CFR 1508.16). We are requesting those Federal and State agencies, local governments, and Tribes that may have jurisdiction by law or special expertise to serve as cooperating agencies in the development of the EIS (40 CFR 1501.6 and 1508.5, 1508.15, 1508.26).

We are continuing the scoping process for this EIS that we began in 2007. We will use the comments received during the 2007 public scoping, as well as comments received during this scoping period, in the preparation of our draft EIS.
