

(Wholesale Exposure: OTC Derivatives No Cross-Product Netting) reflects the new 1.25 asset correlation factor for certain unregulated financial institutions as well as regulated financial institutions with assets of at least \$100 billion. The advanced approaches rules introduce the 1.25 multiplier to capture the correlation of financial institutions' common risk factors. The formula for these wholesale exposures is described in section 131 of the revised regulatory capital rules.

Schedules H, I, and J: Internal models methodology (IMM) margin period of risk and specific wrong-way risk: The proposed insertion of memorandum items in Schedule H (Wholesale Exposure: Eligible Margin Loans, Repo-Style Transactions, and OTC Derivatives with Cross-Product Netting), Schedule I (Wholesale Exposure: Eligible Margin Loans and Repo-Style Transactions No Cross-Product Netting) and Schedule J (Wholesale Exposure: OTC Derivatives No Cross-Product Netting) reflects the new capital requirements for the margin period of risk and wrong-way risk in the advanced approaches. The revised advanced approaches rules introduce an increased margin period of risk of 20 days. In addition, for OTC derivative transactions, repo-style transactions, and margin loans that exhibit wrong-way risk, the advanced approaches rules require a banking organization to apply an increased capital requirement rather than the IMM to these exposures. The calculations and requirements associated with margin period of risk and wrong-way risk are described in section 132 of the revised regulatory capital rules.

Schedules B and R: Summary table and equity exposures: The proposed revisions to Schedule B (Summary Risk-weighted Assets Information for Banks) reflect the proposed changes to the schedules described above in this section III.B. In addition, the revised advanced approaches rules remove the prior money market fund approach for equity exposures. Accordingly, in proposed revised Schedule R (Equity Exposures), the agencies propose to remove this approach.

IV. Scope and Frequency of Reporting

The proposed regulatory reporting changes to Call Report Schedule RC-R ultimately would apply to all Call Report filers. The proposed revisions to the FFIEC 101 would apply only to advanced approaches banking organizations. Each reporting entity would continue to submit the applicable quarterly reports on the same due dates as are currently in effect for the reporting entity. In addition, the

agencies expect all reporting entities to meet the existing reporting standards for accuracy and other requirements as currently mandated by their primary federal supervisor.

See section I.B of this notice for a detailed discussion of the timing for the implementation of the proposed reporting changes.

V. Request for Comment

Public comment is requested on all aspects of this joint notice. In particular, do advanced approaches institutions expect that making any specific line items on proposed revised FFIEC 101 Schedule A public would cause them competitive or other harm? If so, identify the specific line items and describe in detail the nature of the harm.

Additionally, comments are invited on

(a) Whether the collections of information that are the subject of this notice are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

(b) The accuracy of the agencies' estimates of the burden of the information collections as they are proposed to be revised, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Comments submitted in response to this joint notice will be shared among the agencies and will be summarized or included in the agencies' requests for OMB approval. All comments will become a matter of public record.
