

**SUMMARY:** The Bureau of Land Management (BLM) announces the availability of the Record of Decision (ROD)/Approved Amendment to the California Desert Conservation Area (CDCA) Plan for the West Chocolate Mountains Renewable Energy Evaluation Area (REEA) located in Imperial County, California. **SUPPLEMENTARY INFORMATION:** The Final Environmental Impact Statement (EIS) and Proposed Plan Amendment (PA) for the REEA analyzed the potential environmental impacts of making available approximately 20,762 acres of BLM-managed surface lands in the REEA for testing and developing solar and wind energy facilities and for leasing approximately 19,162 acres of Federal mineral estate for geothermal energy testing and development near Niland, California. The Final EIS also analyzed the potential environmental impacts of approving a pending geothermal lease application in the REEA.

The purpose of the proposed action was to facilitate appropriate development of geothermal, solar, and wind energy in the REEA and make appropriate land use plan decisions regarding the location, development, and management of those resources. The Final EIS/Proposed PA fully analyzed six alternatives. The preferred alternative and the BLM's final decision is Alternative 6—Geothermal Development Emphasis with Moderate Solar Development and No Wind

Development. Selection of this alternative amends the CDCA Plan to identify areas in the REEA as suitable for geothermal leasing and development and solar energy development, subject to constraints related to the presence of sensitive resources. Standard stipulations as well as a stipulation for groundwater usage to require preparation of a Water Supply Assessment under California Code §§ 10910-10915 are included. In addition, renewable energy development that would require high water usage will not be allowed. The CDCA Plan is also amended to identify the REEA as unsuitable for wind energy development. Additionally, lands east of the Coachella Canal will have a disturbance cap of 10 percent. BLM lands west of the Coachella Canal are identified as a Solar Energy Zone. Finally, a noncompetitive Federal geothermal lease application is approved; however, before development of the lease is authorized, site specific NEPA analysis will be required. The Notice of Availability of the Final EIS/ Proposed PA for the REEA was published in the **Federal Register** December 14, 2012 (77 FR 74479 and 77 FR 71446), which initiated a 30-day protest period for the proposed amendment to the CDCA Plan. During this time no protests were submitted. Simultaneously with the protest period, the Governor of California conducted a consistency review of the proposed CDCA Plan amendment to identify any inconsistencies with State or local plan, policies or programs; no inconsistencies were identified.

The agency decision to authorize a geothermal lease is an implementation decision and is appealable under 43 CFR part 4. Any party adversely affected by the leasing decision may appeal within 30 days of publication of this Notice of Availability pursuant to 43 CFR part 4, subpart E. The appeal must be filed with the BLM at 2800 Cottage Way Suite W-1623, Sacramento, CA 95825 as well as the Regional Solicitor Pacific Southwest Region, U.S. Department of Interior, 2800 Cottage Way, E-1712, Sacramento, CA 95825. Please consult the appropriate regulations (43 CFR part 4, subpart E) for further appeal requirements.

**Authority:** 40 CFR 1506.6.

**Background:** In their request letter the Committees asked that the Commission conduct an investigation regarding Indian industrial policies that discriminate against U.S. imports and investment for the sake of supporting Indian domestic industries, and the effect that those barriers have on the U.S. economy and U.S. jobs. As requested by the Committees, the Commission will provide in its report:

- An overview of trends and policies in India affecting trade and foreign direct investment in that country's agriculture, manufacturing and service sectors, as well as the overall business environment. The overview will take a historic view, but focus on the period since 2003. It will include examples of changes in tariff and nontariff measures, including measures related to the protection of intellectual property rights, and other actions taken by India's government to facilitate or restrict the inflow of trade and FDI.

- A description of (1) any significant restrictive trade and FDI policies currently maintained or recently adopted by India as identified by Commission research; (2) the sectors in the U.S. economy most affected by these restrictive policies; and (3) the general competitiveness of sectors in India's economy that are subject to the identified restrictions.

- Several case studies that examine the effects of particular restrictive measures on U.S. firms that export to or invest in India, or that have not done so because of the measures. To the extent feasible, the case studies will address the impact of the restrictive measures on both large and small and medium-sized enterprises.

- To the extent feasible, a quantitative analysis of the economic effects of India's identified restrictive measures on the U.S. economy as a whole, on U.S. trade and investment, and on selected sectors of the U.S. economy.

- Based on the survey and analysis of results, and to the extent feasible, a summary of U.S. firms' perception of (1) recent changes in India's trade and investment policies in selected sectors and (2) the effects of these changes on U.S. firms' strategies towards India (e.g., reducing investment or altering product mix), and analysis of whether the effects

of these policy changes differ by firms' characteristics, such as size, IP-intensiveness, or export status.

**Public Hearing:** A public hearing in connection with this investigation will be held at the U.S. International Trade Commission Building, 500 E Street SW., Washington, DC, beginning at 9:30 a.m. on February 13, 2014.
