Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart UUU. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports, and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities: Owners or operators of petroleum refineries.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart UUU).

Estimated number of respondents: 123 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 10,237 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$9,399,440 (per year), includes \$8,398,136 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the respondent and Agency labor hours in this ICR compared to the previous ICR. The decrease occurred because all sources have met the initial compliance requirement and, therefore, will not incur burden associated with initial notification and performance test during the three-year period of this ICR. The decrease also resulted from a reduction in the respondent universe from 132 to 123 major source facilities. The estimate was obtained from EPA's non-CBI Component 1 Section 114 ICR database and is based on 2010 data.

However, there is an overall increase in respondent labor costs due to an adjustment in labor rates. This ICR uses updated labor rates in calculating all costs. There is also an increase in the total O&M costs due to an update in the estimated number of sources.

Director, Collection Strategies Division.

FEDERAL COMMUNICATIONS COMMISSION**Information Collection Being Reviewed by the Federal Communications Commission**

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before November 5, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov <mailto:PRA@fcc.gov> and to Cathy.Williams@fcc.gov <mailto:Cathy.Williams@fcc.gov>.

Licensees of broadcast stations must apply for renewal of their licenses every eight years.

This collection also includes the third party disclosure requirement of 47 CFR Section 73.3580. This rule requires local public notice of the filing of the renewal application. For AM, FM, Class A TV and TV stations, these announcements are made on-the-air. For FM/TV Translators and AM/FM/TV stations that are silent, the local public notice is

accomplished through publication in a newspaper of general circulation in the community or area being served.

47 CFR Section 73.3555 is also included in this information collection. Section 73.3555 states that in order to overcome the negative presumption set forth in 47 CFR Section 73.3555(d)(4) with respect to the combination of a major newspaper and television station, the applicant must show by clear and convincing evidence that the co-owned major newspaper and station will increase the diversity of independent news outlets and increase competition among independent news sources in the market, and the factors set forth in 47 CFR Section 73.3555(d)(5) will inform this decision. (OMB approval was previously received for the information collection requirements contained in this rule section (waiver showings/filings)).
