

will provide advice to the Secretary of the Interior to guide and oversee implementation of USEITI.

The EITI is a voluntary, global effort designed to increase transparency, strengthen the accountability of natural resource revenue reporting, and build public trust for the governance of these vital activities. Participating countries publicly disclose revenues received by the government for oil, gas, and mining development, while companies make corresponding disclosures regarding these same payments to the government, and both sets of data are reviewed and reconciled by a mutually agreed upon independent third party. Results are then released in a public report.

Meeting Agenda: At the first meeting, the Committee will receive informational briefings and will discuss and develop its goals and procedures, a meeting schedule and work plan for 2013.

Public Input: Interested members of the public may present, either orally or through written comments, information for the Committee to consider during the public meeting. The meeting is open to the public, but space is limited, so all interested in attending should preregister by close of business February 6, 2013. Individuals or groups requesting to make comments at the public Committee meeting will be allocated up to 3 minutes as time permits. Speakers who wish to expand their oral statements, or those who had wished to speak, but could not be accommodated during the public comment period are encouraged to submit their comments in written form after the meeting. To register, request placement on the speaker list, or submit written comments, please contact Ms. Shirley Conway via email at Shirley.Conway@onrr.gov, by phone at (202) 513-0598 or fax (202) 513-0682.

Background

The Act (16 U.S.C. 1531 et seq.) prohibits certain activities with respect to endangered and threatened species unless a Federal permit allows such activity. A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittee to conduct activities (including take or interstate commerce) with respect to U.S. endangered or threatened species for scientific purposes or enhancement of propagation or survival. Our regulations implementing section 10(a)(1)(A) of the Act for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
