SACHRP provides advice and recommendations to the Secretary, HHS, through the Assistant Secretary for Health, on matters pertaining to the continuance and improvement of functions within the authority of HHS directed toward protections for human subjects in research. SACHRP was established by the Secretary, HHS, on October 1, 2002. The due date for all applications was October 28, 2013. Response to this solicitation notice has been low; a sufficient number of applications has not been received to identify qualified candidates to be considered for appointment. In view of the Government shutdown, it has been determined that more time should be given for individuals to submit applications to be considered for appointment to the Committee. Therefore, this notice is being published in the **Federal Register** again to allow more time for qualified individuals to submit applications to fill the impending vacancies on SACHRP.

DATES: Nominations for membership on the Committee must be received no later than December 4, 2013.

SUPPLEMENTARY INFORMATION: The Committee provides advice on matters pertaining to the continuance and improvement of functions within the authority of HHS directed toward protections for human subjects in research. Specifically, the Committee provides advice relating to the responsible conduct of research involving human subjects with particular emphasis on special populations such as neonates and children, prisoners, and the decisionally impaired; pregnant women, embryos and fetuses; individuals and populations in international studies; investigator conflicts of interest; and populations in which there are individually identifiable samples, data or information.

In addition, the Committee is responsible for reviewing selected ongoing work and planned activities of the OHRP and other offices/agencies within HHS responsible for human subjects protection. These evaluations may include, but are not limited to, a review of assurance systems, the application of minimal research risk standards, the granting of waivers, education programs sponsored by OHRP, and the ongoing monitoring and oversight of institutional review boards and the institutions that sponsor research.

Nominations: The OHRP is requesting nominations to fill three positions for voting members of SACHRP. One position will become vacant in March, 2014; two others will become vacant in July. If you submitted a nomination in response to the solicitation request posted in the **Federal Register** on September 27, 2013, you do not need to resubmit your nomination. Nominations of potential candidates for consideration are being sought from a wide array of fields, including, but not limited to: Public health and medicine, behavioral and social sciences, health administration, and biomedical ethics.
