

prohibition. Also, state, local and non-governmental entities were permitted to file petitions for waivers.

On September 25, 1998, the Commission released an *Order on Reconsideration*, FCC 98–214, in this proceeding that further modified and clarified Section 207 rules. Among other things, the *Order on Reconsideration* clarified how declaratory rulings and waivers in this matter are to be served on all interested parties. If a local government seeks a declaratory ruling or a waiver, it must take steps to afford reasonable, constructive notice to residents in its jurisdiction (e.g., by placing notices in a local newspaper of general circulation). Certificates of service and proof of constructive notice also must be provided to the Commission with the petition. In this regard, the petitioner should provide the Commission with a copy of the notice and an explanation of where the notice was placed and how many people the notice might reasonably have reached.

Effective January 22, 1999, FCC 98–273, the Commission amended the rules so that it applies to rental property where the renter has an exclusive use area, such as a balcony or patio.

In FCC 00–366, the Commission then further amended the rule so that it applies to customer-end antennas that receive and transmit fixed wireless signals. This amendment became effective on May 25, 2001.

Needs and Uses: FCC Form 387 is used by licensees and permittees of full-power television stations to detail their digital television (DTV) transition status and to report the completion of their transition-specifically, that they have begun operating their full facility as authorized by the post-transition DTV Table Appendix B. The DTV transition deadline passed on June 12, 2009, meaning that full-power television stations may now broadcast only in digital. However, there are still some full-power TV stations that, because of a “tolling” event, have not commenced digital broadcasting (and so are off-the-air) or that are not operating at their full, authorized digital facility. Therefore, such stations are required to file the FCC Form 387 if and when they commence full, authorized digital operations.

II. Introduction

This notice satisfies the Privacy Act requirement that an agency publishes a system of records notice in the **Federal Register** when there is an addition or change to an agency’s systems of records. Congress has recognized that application of all requirements of the Privacy Act to certain categories of records may have an undesirable and often unacceptable effect upon agencies in the conduct of necessary public business. Consequently, Congress established general exemptions and specific exemptions that could be used to exempt records from provisions of the Privacy Act. Congress also required that exempting records from provisions of the Privacy Act would require the head of an agency to publish a determination to exempt a record from the Privacy Act as a rule in accordance with the Administrative Procedure Act. The Acting Director of FHFA has determined that records and information in these two systems of records are not exempt from the requirements of the Privacy Act.

As required by the Privacy Act, 5 U.S.C. 552a(r), and pursuant to paragraph 4c of Appendix I to OMB Circular No. A–130, “Federal Agency Responsibilities for Maintaining Records About Individuals,” dated February 8, 1996 (61 FR 6427, 6435 February 20, 1996), FHFA has submitted a report describing the systems of records covered by this notice to the Committee on Oversight and Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Office of Management and Budget.

III. Proposed Systems of Records

The system of records “Photographic Files” (FHFA–5) is being revised to update the system name, address new categories of individuals covered, address new records that will be collected, and make non-substantive edits. The system’s new name will be “Photographic, Video, Voice, and Similar Files.” The system contains photographs including hardcopy and electronic images, video, audio, names, date of visit, participation in events and programs, and biographies of speakers, trainers, and others. FHFA uses these photographic records for distribution and reproduction in agency documents and communications such as reports, agency plans, training materials, press releases, briefing materials, research documents, newsletters, and presentations.
