SUPPLEMENTARY INFORMATION:

Background

The GPRA Modernization Act holds federal agencies accountable for using resources wisely and achieving program results. Specifically, the GPRA Modernization Act requires agencies to develop: *Strategic Plans*, which include a mission statement, set out long-term goals, objectives, and strategic measures, and describe strategies to achieve them over a four-year time horizon; *Annual Performance Plans*, which provide annual performance measures and activities toward the long-term *Strategic Plan*; and, *Annual Performance Reports*, which evaluate an agency's success in achieving the annual performance measures.

The *Draft FY 2014–2018 EPA Strategic Plan* reflects the Administrator's themes for advancing EPA's mission. The *Plan* presents five strategic goals to accelerate protection of human health and the environment and four cross-cutting fundamental strategies for changing the way the agency does business in achieving its results. The five strategic goals are: Addressing Climate Change and Improving Air Quality; Protecting America's Waters; Cleaning Up Communities and Advancing Sustainable Development; Ensuring the Safety of Chemicals and Preventing Pollution; and Protecting Human Health and the Environment by Enforcing Laws and Assuring Compliance. The four cross-cutting fundamental strategies are: Working Toward a Sustainable Future; Working to Make a Visible Difference in Communities; Launching a New Era of State, Tribal, Local, and International Partnerships; and Embracing EPA as a High-Performing Organization. The *Strategic Plan* also identifies a suite of strategic measures by which the agency will hold itself accountable.
