Federal Register

Vol. 78, No. 228

Tuesday, November 26, 2013

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program: State Options
OMB Control Number: 0584–0496
Summary of Collection: The Food, Conservation and Energy Act of 2008, Public Law 110–246, Section 4001–4002, amended the Food and Nutrition Act of 2008 to rename the Food Stamp Program the “Supplemental Nutrition Assistance Program (SNAP). The Act establishes SNAP as a means-tested program under which needy households may apply for and receive assistance to supplement their ability to purchase food. The Act specifies national eligibility standards and imposes certain administrative requirements on State agencies in administering the program. The program is directly administered by State welfare agencies, which are responsible for determining the eligibility of applicant households and issuing benefits to those households entitled to benefits under the Act.

Need and Use of the Information: FNS will collect information from State agencies on how the various SNAP implementation options will be determined. The information collected will be used by FNS to establish quality control reviews, standards and self-employment costs.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 52.

Frequency of Responses:

Recordkeeping; Reporting: Annually.

Total Burden Hours: 316.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 21, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper

performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 26, 2013 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725–17th Street NW., Washington, DC 20503. Commenters are encouraged to submit their comments to OMB via email to: *OIRA_Submission@omb.eop.gov* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Copies of the submission(s) may be obtained by calling (202) 720–8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Pesticide Protection Equipment.
OMB Control Number: 0535–NEW.

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue state and national estimates of crop production, livestock production, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. NASS has been asked by The National Institute for Occupational Safety and Health (NIOSH) to assist in its efforts to reduce the risks of illness and injury associated with pesticide exposure due to incorrect

personal protective equipment (PPE) practices. NIOSH is mandated to conduct research and make recommendations for the prevention of work-related disease and injury under Section 20 of the Occupational Safety and Health Act, 29 U.S.C. 669 and Section 501 of the Federal Mine Safety and Health Act, 30 U.S.C. 951. General authority for these data collection activities by NASS is granted under U.S.C. Title 7, Section 2204(a). This pilot study project will concentrate on assessing pesticide safety practices among Pennsylvania crop farm operators who have personally applied pesticides for crop production using methods other than aerial applications and enclosed cab vehicles.

Need and Use of the Information: The Pesticide Safety Practices among Pennsylvania Farms Survey will use a sampling universe defined as crop growers in PA. The survey will be conducted in a two step process. First, the screening phase will consist of an information letter, blank screening form and a postage paid return envelope. Finally, operations will be selected from the screening phase to conduct the survey. The primary goals of the project are: (1) To determine the extent to which PA crop growers use appropriate PPE practices; and (2) when applicable, to identify the factors that cause incorrect PPE practices, and (3) when applicable, identify the factors that would motivate a crop grower to start using correct practices. Without this information NIOSH is not able to verify whether these applicators are using correct practices and potentially at increased risk for pesticide exposure and related illnesses.

Description of Respondents: PA crop producers who applied pesticides in the past six months using a method other than helicopters, airplanes, or equipment pulled by enclosed cab tractors or ATVs.

Number of Respondents: 3,000.

Frequency of Responses: Reporting: One time.

Total Burden Hours: 822.

Charlene Parker,

Departmental Information Collection Clearance Officer.

Agricultural Research Service

Notice of Availability for the Final Environmental Assessment (EA) and Finding No Significant Impact (FONSI) for the Cotton Quality Research Station Land Transfer

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture (USDA) Agricultural Research Service (ARS) has made a FONSI for transferring the land and real estate at the Cotton Quality Research Station (CQRS) in Clemson, SC, to Clemson University. The FONSI document is based on impact analysis documented in the EA that was issued for 30-day public comment beginning July 18, 2013, and that was finalized on August 28, 2013.

FOR FURTHER INFORMATION CONTACT: Cal Mather, Environmental Protection Specialist, USDA ARS SHEMA, NCAUR, 1815 North University Street, Room 2060, Peoria, Illinois 61604; Telephone: 309-681-6608 or email: cal.mather@ars.usda.gov. You may contact Mr. Mather for a copy of the FONSI document. Copies of the Final EA and FONSI are also available for public inspection during normal business hours at the following Web site and locations:

- www.clemson.edu/usda-property
- Former CQRS, 133 Old Cherry Road, Clemson, SC 29631
- Strom Thurmond Institute, Special Collections, 230 Kappa St., Clemson, SC 29634

SUPPLEMENTARY INFORMATION: In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the Federal Land Policy and Management Act of 1976 (FLPMA), as amended, the United States Department of Agriculture USDA has prepared an EA for the proposed transfer of approximately 10 acres of land and facilities at the Cotton Quality Research Station (CQRS) from the USDA Agricultural Research Service ARS in Clemson, South Carolina, to Clemson University Research Farm Services. As a condition of the transfer, Clemson University is committed to using the property for agricultural research for a period of 25 years, supporting the strategic goals of USDA and establishing a Beginning Farmers and Ranchers Program in accordance with the Memorandum of Understanding, effective March 27, 2013. Clemson University will assume responsibility

and maintenance of the constructed facilities and land to be conveyed from USDA.

The property was developed to function as a cotton gin and was converted by USDA for use in the ARS research program. USDA ARS and Clemson University have both utilized the property for agricultural research and development programs since the 1970s. The facility was closed under Public Law (PL) 112-55, Consolidated and Further Continuing Appropriations Act, 2012. In August 2012, a 5-year revocable permit was issued between USDA and Clemson University that allows Clemson University to utilize the Property for a Beginning Farmers and Ranchers Program and conduct a wide range of research, teaching, extension, and demonstration activities. Since August 2012 it has been operated by Clemson University under this permit. Under the terms of the PL, the Secretary of Agriculture has the authority to formally transfer the Property from USDA to Clemson University.

The property transfer will be done with no monetary cost to Clemson University and a Quit Claim Deed will be prepared by the USDA to convey the title/property rights to the University. The Quit Claim Deed will incorporate any use restrictions identified by the NEPA process, as well as the 25-year use restriction for agricultural and natural resources research as required by Section 732 of the PL.

Two alternatives are analyzed in the Final EA, the No Action Alternative and the Proposed Action. The Final EA addresses potential impacts of these alternatives on the natural and human environment.

- **Alternative 1—No Action.** The USDA would retain possession of the 10 acres of land and facilities at the 133 Old Cherry Road Property. USDA would no longer operate and/or maintain the property and current research operations at the property would cease. USDA does not have adequate resources to operate and/or maintain the property, which would likely fall into disrepair.

- **Alternative 2—Proposed Action.** The USDA would formally transfer 10 acres of land at the 133 Old Cherry Road Property to Clemson University. As a condition of the transfer, Clemson University would commit to using the Property for agricultural and natural resources research for a period of 25 years, supporting the strategic goals of USDA and establishing a Beginning Farmers and Ranchers Program. Clemson University would assume responsibility and maintenance of the constructed facilities and land to be conveyed from USDA.
