Redesignation of Airports Previously Designated and Applying for Up to an Additional Five Years in the Program

Airports applying for redesignation to the Military Airport Program must submit the same information required by new candidate airports applying for a new designation. On the SF 424, Application for Federal Assistance, prescribed by the Office of Management and Budget Circular A-102, airports must indicate their application is for redesignation to the MAP. In addition to the information required for new candidates, airports requesting redesignation must also explain:

- (1) Why a redesignation and additional MAP eligible project funding is needed to accomplish the conversion to meet the civil role of the airport and the preferred time period for redesignation not to exceed five years;
- (2) Why funding of eligible work under other categories of AIP or other sources of funding would not accomplish the development needs of the airport; and
- (3) Why, based on the previously funded MAP projects, the projects and/or funding level were insufficient to accomplish the airport conversion needs and development goals.

In addition to the information requested above, airports applying for redesignation must provide a reanalysis of their original business/marketing plans (for example, a plan previously funded by the Office of Economic Adjustment or the original Master Plan for the airport) and prepare a report. If there is not an existing business/marketing plan a business/marketing plan or strategy must be developed. The report must contain:

- (1) Whether the original business/marketing plan is still appropriate;
- (2) Is the airport continuing to work towards the goals established in the business/marketing plan;
- (3) Discuss how the MAP projects contained in the application contribute to the goals of the sponsor and their plans; and
- (4) If the business/marketing plan no longer applies to the current goals of the airport, how has the airport altered the business/marketing plan to establish a new direction for the facility and how do the projects contained in the MAP application aid in the completion of the new direction and goals and by what date does the sponsor anticipate graduating from the MAP.

This notice is issued pursuant to Title 49 U.S.C. 47118.

Dated: Issued at Washington, DC, on November 22, 2013.

SUPPLEMENTARY INFORMATION:

Background

An LCV is any combination of a truck-tractor and two or more semi-trailers or trailers that operates on the National System of Interstate and Defense Highways (according to 23 CFR 470.107) and has a gross vehicle weight greater than 80,000 pounds. To enhance the safety of LCV operations on our nation's highways, Section 4007(b) of the Motor Carrier Act of 1991 directed the Secretary of Transportation to establish Federal minimum training requirements for drivers of LCVs [Intermodal Surface

Transportation Efficiency Act of 1991 (ISTEA), Pub. L. 102–240, 105 Stat. 1914, 2152]. The Secretary of Transportation delegated responsibility for establishing these requirements to FMCSA (49 CFR 1.87), and on March 30, 2004, after appropriate notice and solicitation of public comment, FMCSA established the current training requirements for operators of LCVs (69 FR 16722). The regulations bar motor carriers from permitting their drivers to operate an LCV if they have not been properly trained in accordance with the requirements of 49 CFR 380.113. Drivers receive an LCV Driver-Training Certificate upon successful completion of these training requirements. Motor carriers employing an LCV driver must verify the driver's qualifications to operate an LCV, and must maintain a copy of the LCV Driver-Training Certificate to present to authorized Federal, State or local officials upon request.

Title: Training Certification for Drivers of LCVs.

OMB Control Number: 2126–0026.

Type of Request: Extension of a currently-approved information collection.

Respondents: Drivers who complete LCV training each year, current LCV drivers who submit their LCV Driver-Training Certificate to prospective employers, and employers (motor carriers) receiving and maintaining copies of the LCV Driver-Training certificates of their drivers.

Estimated Number of Respondents: 50,880, consisting of 940 newly-certified LCV drivers plus 24,500 currently-certified LCV drivers plus 25,440 motor carriers employing LCV drivers.

Estimated Time per Response: 10 minutes for preparation of LCV Driver-Training Certificates for drivers who successfully complete the LCV training, and 10 minutes for activities associated with the LCV Driver-Training Certificate during the hiring process.

Expiration Date: March 31, 2014.

Frequency of Response: On occasion.

Estimated Total Annual Burden: 4,397 hours. The total number of drivers who will be subjected to these requirements each year is 25,440, consisting of 940 newly-certified LCV drivers, and 24,500 currently-certified LCV drivers obtaining new employment. The total annual information collection burden is approximately 4,397 hours, consisting of 157 hours for preparation of LCV Driver-Training Certificates [940 drivers successfully completing LCV driver training \times 10 minutes \div 60 minutes/hour] and 4,240 hours for requirements related to the hiring of LCV drivers [24,500 LCV drivers

obtaining new employment \times 10 minutes \div 60 minutes/hour].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for FMCSA's performance; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this information collection.

Issued under the authority of 49 CFR 1.87 on: November 20, 2013

Associate Administrator, Office of Research and Information Technology, and Chief Information Officer.
