The ACBSCT advises the Secretary and the Administrator, HRSA, on matters related to the activities of the C.W. Bill Young Cell Transplantation Program and the National Cord Blood Inventory Program.

The ACBSCT shall, as requested by the Secretary, discuss and make recommendations regarding the C.W. Bill Young Cell Transplantation Program (Program). It shall provide a consolidated, comprehensive source of expert, unbiased analysis and recommendations to the Secretary on the latest advances in the science of blood stem cell transplantation. The ACBSCT shall advise, assist, consult, and make recommendations at the request of the Secretary, on broad Program policy in areas such as the necessary size and composition of the adult donor pool available through the Program and the composition of the National Cord Blood Inventory; requirements regarding informed consent for cord blood donation; accreditation requirements for cord blood banks; the scientific factors that define a cord blood unit as high quality; public and professional education to encourage the ethical recruitment of genetically diverse donors and ethical donation practices; criteria for selecting the appropriate blood stem source for transplantation; Program priorities; research priorities; and the scope and design of the Stem Cell Therapeutic Outcomes Database. It also shall, at the request of the Secretary, review and advise on issues relating more broadly to the field of blood stem cell transplantation, such as regulatory policy pertaining to the compatibility of international regulations, and actions that may be taken by the state and federal governments and public and private insurers to increase donation and access to transplantation. The ACBSCT also shall make recommendations regarding research on emerging therapies using cells from bone marrow and cord blood.

The ACBSCT consists of up to 25 members, including the Chair. Members of the ACBSCT shall be chosen to ensure objectivity and balance, and reduce the potential for conflicts of interest. Nominees will be invited to serve a 2- to 6-year term beginning the date of appointment.

HHS will consider nominations of all qualified individuals to ensure that the ACBSCT includes the areas of subject matter expertise noted above.

Individuals may nominate themselves or other individuals, and professional associations and organizations may nominate one or more qualified persons for membership on the ACBSCT.

Nominations shall state that the nominee is willing to serve as a member of the ACBSCT. Potential candidates will be asked to provide detailed information concerning financial interests, consultancies, research grants, and/or contracts that might be affected by recommendations of the ACBSCT to permit evaluation of possible sources of conflicts of interest.
