SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed

collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

(1) *Title:* 49 CFR 571.218, Motorcycle Helmets (Labeling).

OMB Number: 2127-0518.

Requested Expiration Date of Approval: Three years from the approval date.

Type of Request: Extension of a currently approved collection.

Affected Public: Motorcycle helmet manufacturers

Summary of the Collection of Information: The National Traffic Vehicle Safety statute at 49 U.S.C. Subchapter II Standards and Compliance, Sections 30111 and 30117, authorizes the issuance of Federal motor vehicle safety standards (FMVSS). The Secretary is authorized to issue, amend, and revoke such rules and regulations as he/she deems necessary. The Secretary is also authorized to require manufacturers to provide information to first purchasers of motor vehicles or motor vehicle equipment when the vehicle equipment is purchased, in the form of printed matter placed in the vehicle or attached to the motor vehicle or motor vehicle equipment.

Using this authority, the agency issued the initial FMVSS No. 218, "Motorcycle helmets," in 1974.

Motorcycle helmets are devices used to protect motorcyclists from head injury in motor vehicle accidents. FMVSS No. 218 S5.6 requires that each helmet shall be labeled permanently and legibly in a manner such that the label(s) can be read easily without removing padding or any other permanent part.

Estimated Total Annual Burden: 9,100 hours.

Estimated Number of Respondents: 45.

Comments are invited on: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: The Pipeline and Hazardous Materials Safety Administration (PHMSA) is holding a public workshop to present and seek comment on whether applying the gas pipeline integrity management (IM) requirements beyond high consequence area would mitigate the need for class location requirements. Locations along gas pipelines are divided into classes from 1 (rural) to 4 (densely populated) and are based upon the number of buildings or dwellings for human occupancy. Allowable pipe operating stresses, as a percentage of specified minimum yield strength, decrease as class location increases from Class 1 to Class 4 locations. Gas IM requirements use a different approach to identify areas of higher risk along pipelines. The workshop will have presentations from PHMSA, state regulatory representatives and other stakeholders on the review of both methodologies, discussion panels, and an overview of comments received from an August 1, 2013, Notice of Inquiry and from an August 25, 2011, Advance Notice of Proposed Rulemaking in Docket No. PHMSA-2011-0023 at www.regulations.gov.

The details on this meeting including the location, times and agenda will be available on the meeting page <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=95> as they become available.
