

FDA is interested in further comment and information regarding manners and locations for posting consumer notifications for the 14-day time period specified in section 417(h).

Issue 4: Other Issues

Question 4a: As noted previously, the term “reportable food” does not include dietary supplements or infant formula (see sections 201(ff) and 417(a)(2) of the FD&C Act). Further, as discussed previously, section 417(f) of the FD&C Act, as amended by FSMA, provides that FDA may require a responsible party to submit to FDA “consumer-oriented information” regarding a reportable food with the exception of fruits and vegetables that are raw agricultural commodities. Based on these exceptions and exclusions, responsible parties may not submit to FDA consumer-oriented information, under section 417(f) of the FD&C Act, for dietary supplements, infant formula, and fruits and vegetables that are raw agricultural commodities. There may be potential public health impacts if consumer notifications for reportable foods do not include information on dietary supplements, infant formula, and fruits and vegetables that are raw agricultural commodities, particularly if the public believes that such consumer notifications are meant to encompass all food products regulated by FDA. FDA seeks comments or other information on whether consumer notifications posted by chain grocery stores, as specified by section 417(h) of the FD&C Act, should include information advising consumers that such notifications do not cover certain foods, such as a statement asserting that the consumer notifications do not include reportable food or recall information for dietary supplements, infant formula, and fruits and vegetables that are raw agricultural commodities, and consumers should consult FDA’s Web site for any relevant information for these products.

Question 4b: There may be a situation where FDA is aware of a class 1 recall for a reportable food for which a responsible party would be required to submit to FDA consumer-oriented information for such reportable food under section 417(f) of the FD&C Act, but the responsible party failed to submit such information to FDA. In such situations, should FDA prepare and publish a one-page summary of consumer-oriented information, if known, for such reportable food, and require chain grocery stores that sold the reportable food to post such summary or the information from such summary, as specified in section 417(h) of the FD&C Act?

These special local regulations are necessary to provide for the safety of life and property on navigable waters of the United States during the event. These special local regulations would temporarily restrict vessel traffic in a portion of the Atlantic Intracoastal Waterway. Persons and vessels that are not participating in the races would be prohibited from entering, transiting through, anchoring in, or remaining

within the restricted area unless authorized by the Captain of the Port Charleston or a designated representative.

B. Basis and Purpose

The legal basis for the rule is the Coast Guard’s authority to establish special local regulations: 33 U.S.C. 1233. The purpose of the proposed rule is to ensure safety of life and property on the navigable waters of the United States during the ODBA Dragging on the Waccamaw boat races.

C. Discussion of Proposed Rule

On Saturday, June 21, 2014, and Sunday, June 22, 2014 the Outboard Drag Boat Association (ODBA) will host “Dragging on the Waccamaw,” a series of high-speed boat races. The event will be held on a portion of the Atlantic Intracoastal Waterway in Bucksport, South Carolina. Approximately 50 high-speed race boats are anticipated to participate in the races.

The proposed rule would establish a special local regulation that encompass certain waters of the Intracoastal Waterway in Bucksport, South Carolina. The special local regulation would be enforced daily from 10:30 a.m. until 8:30 p.m. on June 21, 2014 through June 22, 2014. The special local regulation would consist of a regulated area around vessels participating in the event. The regulated area would be as follows: All waters of the Atlantic Intracoastal Waterway encompassed within the following points; starting at point 1 in position 33°39′11.46″ N 079°05′36.78″ W; thence west to point 2 in position 33°39′12.18″ N 079°05′47.76″ W; thence south to point 3 in position 33°38′39.48″ N 079°05′37.44″ W; thence east to point 4 in position 33°38′42.3″ N 079°05′30.6″ W; thence north back to origin. All coordinates are North American Datum 1983. Persons and vessels, except those participating in the race, would be prohibited from entering, transiting through, anchoring, or remaining within the regulated area unless specifically authorized by the Captain of the Port Charleston or a designated

representative. Persons and vessels would be able to request authorization to enter, transit through, anchor in, or remain within the regulated area by contacting the Captain of the Port Charleston by telephone at (843) 740–7050, or a designated representative via VHF radio on channel 16. If authorization to enter, transit through, anchor in, or remain within the regulated area is granted by the Captain of the Port Charleston or a designated representative, all persons and vessels receiving such authorization would be required to comply with the instructions of the Captain of the Port Charleston or a designated representative. The Coast Guard would provide notice of the regulated areas by Local Notice to Mariners, Broadcast Notice to Mariners, and on-scene designated representatives.

D. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The economic impact of this proposed rule is not significant for the following reasons: (1) the special local regulations would be enforced for only seventeen hours over a two-day period; (2) although persons and vessels would not be able to enter, transit through, anchor in, or remain within the regulated area without authorization from the Captain of the Port Charleston or a designated representative, they would be able to operate in the surrounding area during the enforcement periods; (3) persons and vessels would still be able to enter, transit through, anchor in, or remain within the regulated area if authorized by the Captain of the Port Charleston or a designated representative; and (4) the Coast Guard would provide advance notification of the regulated area to the local maritime community by Local Notice to Mariners and Broadcast Notice to Mariners.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities: This proposed rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to enter, transit through, anchor in, or remain within that portion of the Atlantic Intracoastal Waterway encompassed within the regulated area from 10:30 a.m. until 8:30 p.m. on June 21, 2014 and June 22, 2014. For the reasons discussed in the Regulatory Planning and Review section above, this proposed rule would not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct

effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive

Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f). The Coast Guard previously completed an environmental assessment for this event and regulation in 2013. The event and regulation for the 2013 occurrence is similar in all aspects to this year’s event and regulation; therefore the same environmental assessment and supplemental environmental assessment are being referenced for this year’s event and regulation. The environmental assessment is available in the docket folder for USCG–2013–0102 at www.regulations.gov. This proposed rule involves establishing a special local regulation issued in conjunction with a regatta or marine parade, that will be enforced from 10:30 a.m. on June 21, 2014, until 8:30 p.m. on June 22, 2014. This rule is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
