

the face when mining through the well when using continuous mining methods. Conduct rock dusting on longwall sections on the roof, rib, and floor up to both the headgate and tailgate gob.

(9) Deenergize all equipment when the wellbore is intersected and thoroughly examine the place and determined it safe before resuming mining.

(10) After a well has been intersected and the working place determined safe, continue mining in by the well at a distance sufficient to permit adequate ventilation around the area of the well.

(11) If the casing is cut or milled at the coal seam level, the use of torches should not be necessary. In rare instances, torches may be used for inadequately or inaccurately cut or milled casings. No open flame is permitted in the area until adequate ventilation has been established around the wellbore and methane levels are less than 1.0 percent in all areas that will be exposed to flames and sparks from the torch. Apply a thick layer of rock dust to the roof, face, floor, ribs, and any exposed coal within 20 feet of the casing prior to any use of torches.

(12) Locate non-sparking (brass) tools on the working section in the event they are needed to expose and examine cased wells.

(13) No person will be permitted in the area of the cut-through operation except those actually engaged in the mining operation, company personnel, representative of the miners, personnel from MSHA, and personnel from the appropriate State agency.

(14) Alert all personnel in the mine to the planned intersection of the well prior to their going underground if the planned intersection is to occur during their shift. Repeat this warning for all shifts until the well has been mined through.

(15) The mine-through operation will be under the direct supervision of a certified official. Instructions concerning the mine-through operation will be issued only by the certified official in charge.

(16) The responsible person required in 30 CFR 75.1501 will be responsible for well intersection emergencies. The responsible person should review the well intersection procedures prior to any planned intersection.

(17) Within 30 days after this petition becomes final, the petitioner will submit proposed revisions for its approved part 48 training plan to the DM.

(18) Within 30 days after this petition becomes final, the petitioner will submit proposed revisions for its approved mine emergency evacuation and

firefighting plan required in 30 CFR 75.1501. The petitioner will revise the plans to include the hazards and evacuation procedures to be used for well intersections. All underground miners will be trained in this revised plan within 30 days of the DM's approval of the revised evacuation plan.

The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure or protection afforded by the existing standard.

Dated: April 2, 2014.

Certifying Officer.

SUPPLEMENTARY INFORMATION:

ACCSH Meeting

Background: ACCSH will meet May 8, 2014, in Washington, DC. The meeting is open to the public. OSHA transcribes ACCSH meetings and prepares detailed minutes of meetings. OSHA places the transcript and minutes in the public docket for the meeting. The docket also includes speaker presentations, comments, and other materials submitted to ACCSH.

ACCSH advises the Secretary of Labor and the Assistant Secretary of Labor for Occupational Safety and Health (Assistant Secretary) in the formulation of standards affecting the construction industry, and on policy matters arising in the administration of the safety and health provisions under the Contract Work Hours and Safety Standards Act (Construction Safety Act (CSA)) (40 U.S.C. 3701 *et seq.*) and the Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) (see also 29 CFR 1911.10 and 1912.3). In addition, the OSH Act and CSA require that OSHA consult with ACCSH before the Agency proposes any occupational safety and health standard affecting construction activities (29 CFR 1911.10; 40 U.S.C. 3704).

Meeting agenda: The tentative agenda for this meeting includes:

- Assistant Secretary's Agency update and remarks;
- Directorate of Construction update on rulemaking projects;
- Proposed rule to update OSHA's standard on Eye and Face Protection in construction. The proposed rule would update the American National Standards Institute consensus standards referenced;
- OSHA's Proposed Rule for Beryllium: Alternatives for Construction;
- Proposed amendments and corrections to OSHA's Cranes and Derricks standards;
- The following items from the proposed Standards Improvement Project IV rulemaking:
 1. Update the Marine Material-Handling standard to refer to the current Longshoring standards;

2. Update the Underground Construction standard on Diesel-Powered Equipment to refer to the current MSHA standard;

3. Clarify Signs, Signals, and Barricades, to require use of traffic control devices and signs, and clarify that the design and use of traffic control devices must conform to the Manual of Uniform Traffic Control Devices (MUTCD), and eliminate duplicative and unnecessary language;

- Presentation on Power Transmission and Distribution; and,
- Public Comment Period.

Workgroup Meetings

The following ACCSH Workgroups will meet May 7, 2014:

- Health Hazards, Emerging Issues, and Prevention through Design: 10 a.m. to 12 p.m.
- Temporary Workers: 1 to 3 p.m.
- Training and Outreach: 3:15 to 5:15 p.m.

ACCSH Workgroup meetings are open to the public. For additional information on ACCSH Workgroup meetings or participating in them, please contact Mr. Bonneau or look on the ACCSH page on OSHA's Web page at: <http://www.osha.gov>.

Attending the meeting: Individuals attending the meetings at the U.S. Department of Labor must enter the building at the visitors' entrance, 3rd and C Streets NW., and pass through building security. Attendees must have valid government-issued photo identification (such as a driver's license) to enter the building. For additional information about building-security measures for attending ACCSH meetings, please contact Ms. Jameson (see "Requests for special accommodations" in the **ADDRESSES** section of this notice).

Requests to speak and speaker presentations: Attendees who want to address ACCSH at the meeting must submit a request to speak, as well as any written or electronic presentation, by April 18, 2014, using one of the methods listed in the **ADDRESSES** section. The request must state:

- The amount of time requested to speak;
- The interest you represent (e.g., business, organization, affiliation), if any; and
- A brief outline of your presentation.

PowerPoint presentations and other electronic materials must be compatible with PowerPoint 2010 and other Microsoft Office 2010 formats.

Alternately, at the ACCSH meeting, you may request to address ACCSH

briefly by signing the public-comment request sheet and listing the topic(s) you will address. You also must provide 20 hard copies of any materials, written or electronic, you want to present to ACCSH.

The ACCSH Chair may grant requests to address ACCSH as time and circumstances permit.

Public docket of the ACCSH meeting: OSHA will place comments, requests to speak, and speaker presentations, including any personal information you provide, in the public docket of this ACCSH meeting without change, and those documents may be available online at: <http://www.regulations.gov>. OSHA also places in the public docket the meeting transcript, meeting minutes, documents presented at the ACCSH meeting, and other documents pertaining to the ACCSH and ACCSH Workgroup meetings. These documents are available online at: <http://www.regulations.gov>.

Access to the public record of ACCSH and ACCSH Workgroup meetings: To read or download documents in the public docket of this ACCSH meeting, go to Docket No. OSHA-2014-0007 at: <http://www.regulations.gov>. The <http://www.regulations.gov> index also lists all documents in the public record for these meetings; however, some documents (e.g., copyrighted materials) are not publicly available through that Web page. All documents in the public record, including materials not available through <http://www.regulations.gov>, are available for inspection and copying in the OSHA Docket Office (see **ADDRESSES** section). Contact the OSHA Docket Office for assistance in making submissions to, or obtaining materials from, the public docket.
