SUPPLEMENTARY INFORMATION: As described by the applicant the intended service of the vessel *DESIDERATA* is *Intended Commercial Use Of Vessel*: “Small group passenger charters on San Francisco Bay and tributaries”
Geographic Region: “California”

The complete application is given in DOT docket MARAD-2014-0054 at <http://www.regulations.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD's regulations at 46 CFR Part 388, that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR Part 388.

SUPPLEMENTARY INFORMATION:**National Highway Traffic Safety Administration**

Title: 49 CFR Part 556, Exemption for Inconsequential Defect or Noncompliance.

OMB Number: 2127-0045.

Type of Request: Extension of a Currently Approved Collection.

Abstract: The National Highway Traffic Safety Administration's statute at 49 U.S.C. 30118, *Notification of Defects and Noncompliance*, and 49 U.S.C. 30120, *Remedies for Defects and Noncompliance*, generally requires manufacturers of motor vehicles and items of replacement equipment to conduct a notification and remedy campaign (recall) when their products are determined to contain a safety-related defect or a noncompliance with a Federal motor vehicle safety standard

(FMVSS). Those sections require a manufacturer of motor vehicles or motor vehicle equipment to notify distributors, dealers, and purchasers if any of the manufacturer's products are determined to either contain a safety-related defect or fail to comply with an applicable FMVSS. The manufacturer is under a concomitant obligation to remedy such defect or noncompliance. Pursuant to 49 U.S.C. 30118(d) and 30120(h), Exemptions, a manufacturer may seek an exemption from these notification and remedy requirements on the basis that the defect or noncompliance is inconsequential as it relates to motor vehicle safety. NHTSA exercised this statutory authority to excuse inconsequential defects or noncompliances when it promulgated 49 CFR part 556, Exemption for Inconsequential Defect or Noncompliance. This regulation establishes the procedures for manufacturers to submit exemption petitions to the agency and the procedures the agency will use in evaluating those petitions. The petition must state the full name and address of the applicant, the nature of its organization (e.g., individual, partnership, or corporation), and the name of the State or country under the laws of which it is organized. See 49 CFR 556.4(b)(3). The petition must also describe the motor vehicle or item of replacement equipment, including the number involved and the period of production, and the defect or noncompliance concerning which an exemption is sought. See 49 CFR 556.4(b)(4). The petition must also set forth all data, views, and arguments of the petitioner supporting the petition, and be accompanied by three copies of the report the manufacturer has submitted, or is submitting, to NHTSA in accordance with 49 CFR part 573, relating to its determination of the existence of the safety-related defect or noncompliance that is the subject of the petition. See 49 CFR 556.4(b)(5) and (6). These requirements allow the agency to ensure that inconsequentiality petitions are both properly substantiated and efficiently processed.

Affected Public: Businesses or other for-profit entities that manufacture or import motor vehicles or motor vehicle replacement equipment.

Estimated Total Annual Burden: 150 hours.

Comments are Invited On: Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; the accuracy of the Agency's estimate of the burden of

the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is most effective if OMB receives it within 30 days of publication.

Extension of Comment Period on Whether Nonconforming 2012 McLaren MP4[12C] Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Extension of comment period.

SUMMARY: This document announces the extension of the comment period on a petition for NHTSA to decide that 2012 McLaren MP4[12C] passenger cars that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are eligible for importation into the United States.

DATES: The closing date for comments on the petition is April 16, 2014.

ADDRESSES: Comments should refer to the docket and notice numbers above and be submitted by any of the following methods:

Accordingly, we recommend that you periodically search the Docket for new material.

FOR FURTHER INFORMATION CONTACT:

George Stevens, Office of Vehicle Safety Compliance, NHTSA (202 366 5308).

SUPPLEMENTARY INFORMATION: On March 3, 2014, NHTSA published a notice (at 79 FR 11869) that it had received a petition to decide that nonconforming 2012 McLaren MP4[12C] passenger cars are eligible for importation into the United States. The notice solicited public comments on the petition and stated that the closing date for comments is April 2, 2014.

This is to notify the public that NHTSA is extending the comment period on this petition, and allowing it to run until April 16, 2014. This reopening is based on a request dated March 27, 2014, from McLaren Automotive, Inc. ("McLaren") the vehicle's manufacturer. McLaren stated that the extension was needed because, in McLaren's view, the petitioner cannot satisfy the statutory criteria, since it would be very difficult, if not impossible, to bring nonconforming MP4[12C] vehicles into compliance

with all applicable FMVSSs. However, because many of the compliance issues that are raised by the subject petition are complex, McLaren will not be able to complete the preparation of its comments in time to meet the current due date. McLaren believes that this short extension will allow the preparation of a response that will address the relevant issues, and that it will not cause any hardship to the petitioner or to any other interested person.

NHTSA has granted McLaren's request. All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B), and (b)(1); 49 CFR 593.7; delegation of authority at 49 CFR 1.95 and 501.8.

Surface Transportation Board

Notice and Request for Comments

AGENCY: Surface Transportation Board, DOT.

ACTION: 60-day notice of request for approval: Applications for Land-Use Exemption Permits.

SUMMARY: As required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3519 (PRA), the Surface Transportation Board (STB or Board) gives notice of its intent to seek from the Office of Management and Budget (OMB) an extension of approval for the collection of Applications for Land-Use Exemption Permits (for Solid Waste Rail Transfer Facilities).

Pursuant to 49 U.S.C. 10501(c)(2), as amended by the Clean Railroads Act of 2008 (CRA), the Board issued rules in *Solid Waste Rail Transfer Facilities*, EP 684 (served on March 24, 2011). Under these rules, a person seeking a Land-Use Exemption Permit must file an application including substantial facts and argument as to why a permit is necessary and, as required by the National Environmental Policy Act, an
