

licensees and applicants for an operating license to voluntarily send to the NRC: (1) Their projected number of candidates for initial operator licensing examinations; (2) the estimated dates of the examinations; (3) if the examinations will be facility developed or NRC developed, and (4) the estimated number of individuals that will participate in the Generic Fundamentals Examination (GFE) for that calendar year. Except for the GFE, this information is used to plan budgets and resources in regard to operator examination scheduling in order to meet the needs of the nuclear power industry.

Submit, by June 23, 2014, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2013-0279]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 30, 2013.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 19, "Notices, Instructions, and Reports to Workers: Inspection and Investigations."

3. *Current OMB approval number:* 3150-0044.

4. *The form number if applicable:* Not applicable.

5. *How often the collection is required:* As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in applicable NRC-licensed activities.

6. *Who will be required or asked to report:* Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

7. *An estimate of the number of annual responses:* 1,426,121.8 responses (1,405,114.8 third-party disclosures + 7 reporting responses + 21,000 recordkeepers).

8. *The estimated number of annual respondents:* 21,000 (3,000 NRC licensees + 18,000 Agreement State licensees).

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 329,273.7.

10. *Abstract:* Part 19 of Title 10 of the *Code of Federal Regulations* (10 CFR), requires licensees to advise workers on an annual basis of any radiation exposure in excess of 1 mSv (100 mrem) they may have received as a result of NRC-licensed activities or when certain conditions are met. These conditions apply during termination of the worker's employment, at the request of the workers, former workers, or when the worker's employer (the NRC licensee) must report radiation exposure information on the worker to the NRC. Part 19 also establishes requirements for instructions by licensees to individuals participating in licensed activities and options available to these individuals in connection with Commission inspections of licensees to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, Title II of the Energy Reorganization Act of 1974, and regulations, orders and licenses there under regarding radiological working conditions. The worker should be informed of the radiation dose he or she receives because: (a) That information is needed by both a new employer and the individual when the employee changes jobs in the nuclear industry; (b) the individual needs to know the radiation dose received as a result of the accident or incident (if this dose is in excess of the 10 CFR Part 20 limits) so that he or she can seek counseling about future work involving radiation, medical attention, or both, as desired; and (c) since long-term exposure to radiation may be an adverse health factor, the individual needs to know whether the accumulated dose is being controlled within the NRC limits. The worker also needs to know about health risks from occupational exposure to radioactive materials or radiation, precautions or procedures to minimize exposure, worker responsibilities and options to report any licensee conditions which may lead to or cause a violation of Commission regulations, and individual radiation exposure reports which are available to him.

The public may examine and have copied for a fee publicly-available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at

the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by May 23, 2014. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Danielle Y. Jones, Desk Officer, Office of Information and Regulatory Affairs (3150-0044), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be emailed to Danielle_Y.Jones@omb.eop.gov or submitted by telephone at 202-395-1741.

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-033; NRC-2008-0566]

DTE Electric Company; Fermi 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Combined license application; availability and corrections.

SUMMARY: On September 18, 2008, the U.S. Nuclear Regulatory Commission (NRC) received an application for a combined license (COL) submitted by Detroit Edison Company. The NRC published a notice of receipt and availability for an application for a COL in the **Federal Register** on October 17, 2008. In a letter dated December 21, 2012, the Detroit Edison Company notified the NRC that, effective January 1, 2013, the name of the company would be changed to "DTE Electric Company." This notice is being published to make available to the public the application for a COL submitted by DTE Electric Company (formerly the Detroit Edison Company). This is the third of four notices related to this action that will be published in the **Federal Register** (FR). The first notice was published on April 9, 2014,

and the second notice was published on April 16, 2014. This notice also corrects the date of the December 21, 2013, letter in first and second notices.

ADDRESSES: Please refer to Docket ID NRC-2008-0566 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this action by the following methods:

SUPPLEMENTARY INFORMATION:

I. Combined License Application: Availability

On September 18, 2008, Detroit Edison Company (renamed DTE Electric Company as of January 1, 2013) filed with the NRC, pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, and Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses, Certifications, and Approvals for Nuclear Power Plants," an application for a COL for an economic simplified boiling-water reactor designated as Fermi 3 in Monroe

County, Michigan. The NRC published a notice of receipt and availability for an application for a COL in the **Federal Register** on October 17, 2008 (73 FRN 61916). The application is currently under review by the NRC staff. On December 21, 2012, the Detroit Edison Company sent the NRC a letter indicating that, effective January 1, 2013, the name of the company would be changed to "DTE Electric Company."

An applicant may seek a COL in accordance with Subpart C of 10 CFR part 52. The information submitted by the applicant includes certain administrative information, such as financial qualifications submitted pursuant to 10 CFR 52.77, as well as technical information submitted pursuant to 10 CFR 52.79. This notice is being provided in accordance with the requirements in 10 CFR 50.43(a)(3).

A copy of the application is available for public inspection at the NRC's PDR, and online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. The application is also available at <http://www.nrc.gov/reactors/new-reactors/col.html>. Additional information about accessing the application and other publicly available documents related to the application, including revisions filed after the initial submission, are provided in the **ADDRESSES** section of this document.

II. Corrections

This is the third of four notices related to this action that will be published in the FR. The first notice was published on April 9, 2014 (79 FR 19659), and the second notice was published on April 16, 2014 (79 FR 21493). This notice corrects the date of the December 21, 2013, letter from Detroit Edison Company that notified the NRC that, effective January 1, 2013, the name of the company would be changed to "DTE Electric Company."

In the FR of April 9, 2014, in Fr. Doc. 2014-07958, on page 19659, in the second column, first paragraph, seventh line, replace the date "December 21, 2013" with the date "December 21, 2012."

In the FR of April 16, 2014, in Fr. Doc. 2014-08545, on page 21493, in the third column, first paragraph, ninth line, replace the date "December 21, 2013" with the date "December 21, 2012."

Dated at Rockville, Maryland, this 15th day of April 2014.
