

Having considered the costs and benefits of various data collection methods, FTC staff has concluded that an Internet panel with nationwide coverage will provide the most efficient way to collect data to meet the research objectives within a feasible budget. Thus, the FTC proposes to collect responses from U.S. automobile consumers representing a broad spectrum of the U.S. adult population. Participants will be drawn from an Internet panel maintained by a commercial firm that operates the panel. All participation will be voluntary. While the results will not be generalizable to the U.S. population, the Commission believes that they will provide useful insights into consumer understanding of the claims being considered.

B. PRA Burden Analysis

Staff estimates that respondents to the Internet questionnaire will require, on average, approximately 20 minutes to complete it. Staff will pretest the questionnaire with approximately 100 respondents to ensure that all questions are easily understood. Allowing for an extra three minutes for questions unique to the pretest, the pretest will total approximately 38 hours cumulatively (100 respondents × 23 minutes each). Once the pretest is completed, the FTC plans to seek information from up to 3,600 respondents for approximately 20 minutes each. Thus, cumulatively, for all respondents, responding to the FTC's pretest and questionnaire will consume approximately 1,238 hours. The cost per respondent should be negligible. Participation will not require start up, capital, or labor expenditures by respondents.

III. Request for Comment

SUPPLEMENTARY INFORMATION:

A. Purpose

Federal Acquisition Regulation (FAR) 22.406 prescribes labor standards for federally financed and assisted construction contracts subject to the Davis-Bacon and Related Acts (DBRA), as well as labor standards for non-construction contracts subject to the Contract Work Hours and Safety Standards Act (CWHSSA).

The recordkeeping requirements in this regulation, FAR 22.406, reflect the

requirements cleared under OMB control numbers 1215-0140, 1215-0149, and 1215-0017 for 29 CFR 5.5(a)(1)(i), 5.5(c), and 5.15 (records to be kept by employers under the Fair Labor Standards Act (FLSA)). The regulation at 29 CFR 516 reflects the basic recordkeeping and reporting requirements for the laws administered by the Wage and Hour Division of the Employment Standards Administration.

FAR 22.406-3, implements the recordkeeping and information collection requirements prescribed in 29 CFR 5.5(a)(1)(ii) cleared under OMB control number 1215-0140 (also prescribed at 48 CFR 22.406 under OMB control number 9000-0089), by providing SF 1444, Request for Authorization of Additional Classification and Rate, for the contractor and the Government to enter the recordkeeping and information collection data required by 29 CFR 5.5(a)(1)(ii) prior to transmitting the data to the Department of Labor.

This SF 1444 places no further burden on the contractor or the Government other than the information collection burdens already cleared by OMB for 29 CFR 5.

B. Annual Reporting Burden

There is no burden placed on the public beyond that prescribed by the Department of Labor regulations.

Number of Respondents: 4493.

Responses per Respondent: 2.

Total Annual Responses: 8986.

Review time per response: .5.

Total Burden Hours: 4493.

The burden hour is estimated to be time necessary for the contractor to prepare and submit the form.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requester may obtain a copy of the justification from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Meeting of the Community Preventive Services Task Force (Task Force)

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice of meeting.

SUMMARY: The Centers for Disease Control and Prevention (CDC) announces the next meeting of the Community Preventive Services Task Force (Task Force). The Task Force is an independent, nonpartisan, nonfederal, and unpaid panel. Its members represent a broad range of research, practice, and policy expertise in prevention, wellness, health promotion, and public health, and are appointed by the CDC Director. The Task Force was convened in 1996 by the Department of Health and Human Services (HHS) to identify community preventive programs, services, and policies that increase healthy longevity, save lives and dollars and improve Americans' quality of life. CDC is mandated to provide ongoing administrative, research, and technical support for the operations of the Task Force. During its meetings, the Task Force considers the findings of systematic reviews on existing research, and issues recommendations. Task Force recommendations are not mandates for compliance or spending. Instead, they provide information about evidence-based options that decision makers and stakeholders can consider when determining what best meets the specific needs, preferences, available resources, and constraints of their jurisdictions and constituents. The Task Force's recommendations, along with the systematic reviews of the scientific evidence on which they are based, are compiled in the *Guide to Community Preventive Services (Community Guide)*.
