**SUPPLEMENTARY INFORMATION:** Pursuant to the National Environmental Policy Act, Reclamation will serve as the lead federal agency for preparation of the EIS on the continued implementation of the Operating Agreement for the Rio Grande Project, New Mexico and Texas. The responsible official for this action is Reclamation's Upper Colorado Regional Director.

### Background

The Rio Grande Project includes Elephant Butte and Caballo dams and reservoirs, a power generating plant, and five diversion dams (Percha, Leasburg, Mesilla, American, and International) located on the Rio Grande in New Mexico and Texas. The Rio Grande Project was authorized by Congress under the authority of the Reclamation Act of 1902 and the Rio Grande Project Act of February 25, 1905. The Rio Grande Project Operating Agreement was signed in 2008 to allocate Rio Grande Project water, which includes water stored in Elephant Butte and Caballo reservoirs and return flows to the Rio Grande between the EBID in the Rincon and Mesilla valleys of New Mexico and the EPCWID in the Mesilla and El Paso valleys of Texas and Mexico. The Rio Grande Project also provides water to Mexico under the 1906 international treaty. Rio Grande Project water is provided by Reclamation to irrigate a variety of crops and for municipal and industrial water uses.

### Purpose and Need for Action

The purpose and need for action is to meet contractual obligations to EBID and EPCWID to implement a written set of criteria and procedures for allocating, delivering, and accounting for Rio Grande Project water to both districts consistent with their rights under applicable law each year in compliance with various court decrees, settlement agreements, and contracts. These include the 2008 Compromise and Settlement Agreement among Reclamation, EBID, and EPCWID, and contracts between the United States and the EBID and EPCWID. The purpose and need of an ancillary but potentially similar action is to implement the

provisions of the Act of December 29, 1981, to allow the storage of San Juan-Chama project water acquired by contract with the Secretary of the Interior pursuant to Public Law 87-483 in Elephant Butte Reservoir.

### Proposed Action

The proposed federal action is to continue to implement the 2008 Operating Agreement for the Rio Grande Project over the remaining term (through 2050), and a potentially similar action under 40 CFR 1508.25, to implement long-term contracts for storage of San Juan-Chama water in the Rio Grande Project.

### Scoping Process

This notice initiates the scoping process which guides the development of the EIS. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to Reclamation using the contact information provided above. To be most effective, written comments should be received prior to the close of the comment period and should clearly articulate the commentor's concerns.
