Peanut Standards Board

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; request for nominations.

SUMMARY: The Farm Security and Rural Investment Act of 2002 (2002 Farm Bill) requires the Secretary of Agriculture to establish a Peanut Standards Board (Board) for the purpose of advising the Secretary on quality and handling standards for domestically produced and imported peanuts. The initial Board was appointed by the Secretary and announced on December 5, 2002. USDA seeks nominations for individuals to be considered for selection as Board members for a term of office ending June 30, 2017. Selected nominees would replace three producers and three industry representatives who currently serve on the Board and who have terms of office that end on June 30, 2014. The Board consists of 18 members representing producers and the industry. In an effort to obtain diversity among candidates, USDA encourages the nomination of men and women of all racial and ethnic groups and persons with a disability.

DATES: Written nominations must be received on or before July 14, 2014.

ADDRESSES: Nominations should be sent to Jennie M. Varela of the Southeast Marketing Field Office, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA, 799 Overlook Drive, Suite A, Winter Haven, FL 33884; Telephone: (863) 324-3375; Fax: (863) 325-8793; Email: Jennie.Varela@ams.usda.gov.

SUPPLEMENTARY INFORMATION: Section 1308 of the 2002 Farm Bill requires the Secretary of Agriculture to establish and consult with the Board for the purpose

of advising the Secretary regarding the establishment of quality and handling standards for all domestic and imported peanuts marketed in the United States.

The 2002 Farm Bill provides that the Board's makeup will include three producers and three peanut industry representatives from states specified in each of the following producing regions: Southeast (Alabama, Georgia, and Florida); Southwest (Texas, Oklahoma, and New Mexico); and Virginia/Carolina (Virginia and North Carolina).

The term "peanut industry representatives" includes, but is not limited to, representatives of shellers, manufacturers, buying points, and marketing associations and marketing cooperatives. The 2002 Farm Bill exempted the appointment of the Board from the requirements of the Federal Advisory Committee Act.

USDA invites individuals, organizations, and groups affiliated with the categories listed above to nominate individuals for membership on the Board. Nominees sought by this action would fill two positions in the Southeast region, two positions in the Southwest region, and two positions in the Virginia/North Carolina region.

Nominees should complete a Peanut Standards Board Background Information form and submit it to Jennie Varela at the address provided in the "Addresses" section above. Copies of this form may be obtained at the internet site <http://www.ams.usda.gov/PeanutStandardsBoard>, or from the Southeast Marketing Field Office. USDA seeks a diverse group of members to represent the peanut industry.

Equal opportunity practices will be followed in all appointments to the Board in accordance with USDA policies. To ensure that the recommendations of the Board have taken into account the needs of the diverse groups within the peanut industry, membership shall include, to the extent practicable, individuals with demonstrated abilities to represent minorities, women, persons with disabilities, and limited resource agriculture producers.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Sunshine Act Meeting

TIME AND DATE: June 5, 2014, 4 p.m.–7 p.m. c.d.t.

PLACE: Hilton Americas, 1600 Lamar Street, Houston, TX 77010.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

The Chemical Safety and Hazard Investigation Board (CSB) will convene a public meeting on June 5, 2014, starting at 4:00 p.m. CDT, at the Hilton Americas Hotel, Grand Ballroom, Houston, Texas 77010.

At the public meeting, the Board will consider and vote on the executive summary and first two volumes of the

CSB's report into the April 20, 2010 blowout of the Macondo well in the Gulf of Mexico. The Macondo incident had a catastrophic impact. Eleven workers died, 17 others were seriously injured, and millions of barrels of oil spilled into the Gulf of Mexico, making it one of the largest environmental disasters in U.S. history. The CSB, at the request of the Chairman of the House Committee on Energy and Commerce, launched an independent investigation with a broad mandate to examine not only the technical factors surrounding the incident, but also certain organizational issues and opportunities for improvement to regulatory standards and industry best practices offshore.

Following a presentation by CSB investigators, the Board will hear public comments related to the report. The staff presentations are preliminary and are intended solely to allow the Board to publicly consider the findings and potential recommendations for this case. No factual analyses, conclusions, or findings presented by staff should be considered final. The Board may vote to adopt the final investigation report and recommendations after hearing staff presentations and public comments.

Public Comment

Members of the public are invited to make brief statements to the Board at the conclusion of the staff presentations. The time provided for public statements will depend upon the number of people who wish to speak. Speakers should assume that their presentations will be limited to five minutes or less, but commenters may submit written statements for the record.

Additional Information

The meeting is free and open to the public. If you require a translator or interpreter, please notify the individual listed below as the "Contact Person for Further Information," at least five business days prior to the meeting.

The CSB is an independent federal agency charged with investigating accidents and hazards that result, or may result, in the catastrophic release of extremely hazardous substances. The agency's Board Members are appointed by the President and confirmed by the Senate. CSB investigations look into all aspects of chemical accidents and hazards, including physical causes such as equipment failure as well as inadequacies in regulations, industry standards, and safety management systems. General information about the CSB can be found on the agency Web site at: www.csb.gov.
