

Semiannual summary reports are also required.

Form Numbers: None.

Respondents/affected entities: Pharmaceutical manufacturing operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart GGG).

Estimated number of respondents: 27 (total).

Frequency of response: Initially, occasionally, quarterly and semiannually.

Total estimated burden: 44,266 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,442,518 (per year), includes \$112,266 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: 1) The regulations have not changed since the publication of the 2011 final rule, which was covered in the last ICR renewal; and 2) the growth rate for the industry is very low, negative or non-existent. However, there is an increase in industry cost as the burden calculations in this ICR, including affirmative defense, have been updated to use more recent labor rates.
