

companies will receive a mailed notification letter containing their User ID and password, and directed to respond via Centurion through the Census Bureau's Business Help Site. The online reporting instrument is an electronic version of the paper data collection instrument, and based on the company's diversity of operations and number of industries with payroll. Companies operating in only one industry will access an ICT-1(S) form or electronic instrument. These companies will not be asked to report ICT expenditures by industry, this will eliminate the need for industry self coding. Companies operating in more than one, but less than nine industries will access an ICT-1(M) form or electronic instrument. Companies that operate in nine or more industries will access an ICT-1(L) form or electronic instrument. Companies will be able to print the form through online services or request a paper form by mail.

The Census Bureau will continue to ask companies to respond to the survey within 30 days. Reminder letters and/or telephone calls encouraging participation will continue to go to all companies that have not responded by the designated time.

For the 2014 and 2015 ICTS data collection, the Census Bureau will determine whether to use the same data collection strategy based upon the electronic response rate for the 2013 ICTS.

The ICTS is an important part of the Federal Government's effort to improve and supplement ongoing statistical programs. The Bureau of Economic Analysis (BEA), Federal Reserve Board, Bureau of Labor Statistics and industry analysts use these data to evaluate productivity and economic growth prospects. In addition, the ICTS provides improved source data significant to BEA's estimate of the investment component of Gross Domestic Product, capital stock estimates, and capital flow tables. Other Federal agencies, private industry organizations, and academic researchers use the survey results for analyzing and studying past and current economic performance, short-term economic forecasts, productivity, long-term economic growth, tax policy, capacity utilization, business fixed capital stocks and capital formation, international competitiveness and competitiveness and trade policy, market research, and financial analysis.

Affected Public: Business or other for-profit, Not-for-profit institutions.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: The Census Bureau conducts this survey under the authority of Title 13 of the United States Code, Sections 131 and 182. Sections 224 and 225 make the survey mandatory.

SUPPLEMENTARY INFORMATION:

I. Abstract

The mission of the Economic Development Administration (EDA) is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. One of EDA's economic development tools is the Revolving Loan Fund (RLF) program. Under the RLF program, EDA's regional offices award competitive grants to units of state and local government, institutions of higher education, public or private non-profit organizations, EDA-approved economic development district organizations, and Indian Tribes to establish RLFs. Following grant award, an RLF grantee disburses money from the RLF to make loans at interest rates that are at or below the current market rate to small businesses or to businesses that cannot otherwise borrow capital. On occasion, RLFs also make loans to finance public infrastructure. As the loans are repaid, the grantee uses a portion of interest earned to pay administrative expenses and adds the remaining principal and interest repayments to the RLF's capital base to make new loans. An RLF award that is well managed is actively used to make loans to eligible businesses and entities, continues to revolve funds, and does not have a termination date.

One of the unique features of the program is that, by law, EDA must exercise fiduciary responsibility over its RLF portfolio in perpetuity—a significant challenge since many RLF grants date back to 1979. EDA's regulations therefore require EDA RLF grantees to submit an ED-209, Semi-annual Report to EDA, every six months for each RLF they operate. In addition, EDA RLF grantees must submit an ED-209I, RLF Income and Expense Statement, if either of the following conditions applies to their RLF: (a) Total administrative expenses for the 6-month period exceed \$100,000, or (b) administrative expenses for the 6-month period exceed 50 percent of RLF income for the 6-month period. EDA requires that both of these reports be completed using EDA authorized and provided, standardized, auto calculable Fillable PDF (Portable Document Format) Forms, instead of using the web-based electronic reporting system previously available, known as Revolving Loan Fund Management System (RLFMS). As of January 24, 2012, EDA terminated network services, including RLFMS, in response to a significant information technology security incident and has suspended use of RLFMS and will use a digital fillable PDF of the ED-209 and

ED-209I in lieu of the RLFMS web based ED-209 and ED209I.

II. Method of Collection

Electronically via use of standardized auto calculable PDF forms, provided by the EDA and sent via email.

III. Data

OMB Control Number: 0610-0095.

Form Number(s): ED-209 and ED-209I.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Not for-profit institutions; state or local governments.

Estimated Number of Respondents: 1,460.

Estimated Time per Response: ED-209, 3 hours; and ED-209I, 1 hour.

Estimated Total Annual Burden Hours: 3,796.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
