5. For each of the above questions, how would answers differ if the monthly or annual aggregated data were for a retailer's aggregated sales at all stores within a state or nationally, as opposed to per-store data? Should any other aggregations be considered?

Commenters who were SNAP-authorized retailers from 2005 through 2010 should make that fact clear in their comments.

SUPPLEMENTARY INFORMATION: At the end of fiscal year (FY) 2013, over 250,000 retailers were authorized to redeem SNAP benefits. According to the FY 2013 data, 82 percent of all benefits redeemed were redeemed at supermarkets, large grocers and superstores. Approximately 18 percent of benefits were redeemed at smaller stores, including convenience stores, small grocers and farmers' markets. Less than one percent were redeemed by authorized treatment programs, group homes, homeless meal providers, communal dining facilities and shelters as provided for in statute. A 2009 FNS

study on benefit use indicates that 96.3 percent of all SNAP beneficiaries shopped at supermarkets or superstores at least once each month.

SUPPLEMENTARY INFORMATION:

Title: Application for Non-Land Grant College of Agriculture certification.

OMB Number: 0524—New.

Type of Request: Notice; Request for Public Comments on Proposed Collection of Information.

Abstract: NIFA is responsible for designating Non-Land Grant Colleges of Agriculture (NLGCAs). Section 7101 of the Agricultural Act of 2014 (Pub. L. 113-79) required NIFA to establish an ongoing process allowing public colleges and universities that offer 4-year or higher degrees in the food and agricultural sciences to apply for designation as NLGCA Institutions. For additional information see "Process for Non-Land Grant College of Agriculture (NLGCA) Designation" 79 FR 29398 (May 22, 2014).

Type of Information Collection: NIFA will collect this information through web-based data collection. Institutions seeking designation as a NLGCA will submit requested information about their institution through a web-based form. The information collected from each institution will allow NIFA to verify that the institution is a public college or university, offers a baccalaureate or higher degree in food and agricultural sciences, as defined in 7 U.S.C. 3103(9), and is not otherwise ineligible to be designated as an NLGCA.

Frequency: Institutions seeking designation as an NLGCA must apply one time. Their designation will be valid until September 30, 2018. Upon expiration of their designation, reapplication may be required.

Affected Public: Institutions that meet the criteria for NLGCA designation; public colleges and universities that offer 4-year or higher degrees in the food and agricultural sciences.

Estimate of Burden: NIFA estimates that the time required to complete the web-based application form will be approximately 15 minutes. The information that is required includes minimal information about the institution. The total annual burden for the application to request designation as a NLGCA is 18.75 hours for a projected 75 applicants.

Comment Request: Comments are invited on whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; the accuracy of the Agency's estimate of the burden of the proposed collection of information; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the

burden of the collection of information on respondents, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request to OMB for approval. All comments will become a matter of public record.

Obtaining a Copy of the Information Collection: A copy of the information collection and related instructions may be obtained free of charge by contacting Robert Martin as directed above.

Done at Washington, DC, this 21st day of July, 2014.

Ann M. Bartuska,

Deputy Under Secretary, Research, Education, and Economics.

Foreign-Trade Zones Board

[B-52-2014]

Foreign-Trade Zone 63—Prince George's County, Maryland: Application for Reorganization Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by Prince George's County, Maryland, grantee of FTZ 63, requesting authority to reorganize the zone under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR Sec. 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the FTZ Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on July 29, 2014.

FTZ 63 was approved by the FTZ Board on October 20, 1980 (Board Order 167, 45 FR 71639, 10/29/80). The current zone includes the following site: *Site 1* (77.48 acres)—Collington Center Industrial Park, Trade Zone Avenue, Upper Marlboro, Maryland.

The grantee's proposed service area under the ASF would be Prince George's County, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The proposed service area is adjacent to the Washington-Dulles Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone to include
