Background

FMCSA has published notices of receipt of Federal vision exemption applications and its intent to grant the exemptions. The Agency also requested comments from the public. The comment period closed 30 days after the publication date, and the exemptions were issued 1 day after the comment period closed.

FMCSA evaluated the eligibility of the drivers and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(10).

The determining criteria for and the conditions and requirements of the exemptions, to which all exempted drivers are subject, were discussed in detail when the docket was originally published (79 FR 35212). As always, any adverse comments that come in after the exemption is granted will be evaluated, and if they indicate that the driver is not achieving a level of safety equivalent to, or greater than, the level of safety that would be obtained by complying with the regulation, the exemption will be revoked. When granted, the exemptions will enable these individuals with vision deficiencies in one eye to operate in interstate commerce.
