

filing. However, Rule 19b-4(f)(6)(iii)¹⁸ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing, noting that a waiver of the operative delay will allow the Exchange to continue to strive towards a complete technology integration of the BGM Affiliated Exchanges, with gradual roll-outs of new functionality to ensure stability of the System. The Exchange also believes that the benefit to Exchange Users expected from the proposed rule change—greater flexibility in their efforts to fill orders and minimize trading costs—should not be delayed. Further, the Exchange states that introduction of the optional variations of the SWP routing strategy will not require any systems changes by Exchange Users that would necessitate a delay, as selection of the SWPA and SWPB variations is entirely optional and Users will not be affected by the change unless they select to use the newly offered variations. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.¹⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
