

surveys, the survey may be conducted up to 15 times per year.

Current Actions: On June 18, 2014, the Federal Reserve published a notice in the **Federal Register** (79 FR 34751) requesting public comment for 60 days on the proposal to implement the Policy Impact Survey. The comment period for this notice expired on August 18, 2014. The Federal Reserve did not receive any comments. The FR 3075 survey will be implemented as proposed.

Board of Governors of the Federal Reserve System, September 4, 2014.

Robert deV. Frierson,
Secretary of the Board.

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than September 24, 2014.

A. Federal Reserve Bank of Minneapolis (Jacquelyn K. Brunmeier, Assistant Vice President) 90 Hennepin Avenue, Minneapolis, Minnesota 55480-0291:

1. *Douglas L. Jilek B Trust, Sheila K. Jilek, both of Lester Prairie, and Norman C. Arlt, Aurora, Colorado, individually and as co-trustees of the Douglas L Jilek B Trust; to acquire voting shares of Prairie Bancshares, Inc., and thereby indirectly acquire voting shares of First Community Bank, both in Lester Prairie, Minnesota.*

Board of Governors of the Federal Reserve System, September 4, 2014.

Michael J. Lewandowski,
Associate Secretary of the Board.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Written comments and/or suggestions regarding the items contained in this notice should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Promoting Adolescent Health through School-Based HIV/STD Prevention—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC) requests a 3-year OMB approval to conduct a new information collection entitled, "Promoting Adolescent Health Through School-Based HIV/STD Prevention". The proposed project is a semi-annual Web-based questionnaire to assess programmatic activities among funded agencies which include local education agencies (LEA), state education agencies (SEA), and non-governmental organizations (NGO) funded by the Division of Adolescent and School Health (DASH), Centers for Disease Control and Prevention.

Currently, the questionnaires are the only standardized reporting process for HIV/STD prevention activities among LEAs, SEAs, and NGOs funded by DASH. The data being gathered via the nine questionnaires: (1) Provides standardized information about how HIV/STD prevention funds are used by funded agencies; (2) provides descriptive and process information about program activities; and (3) provides greater accountability for use of public funds. The questionnaires are completed by the funded agencies on a Web site managed by DASH and its contractor, Karna. The questionnaires are to be completed on a semi-annual basis.

The questionnaires pertain to the approaches that funded agencies are using to meet their goals. Approaches include helping districts and schools deliver exemplary sexual health education (ESHE) emphasizing HIV and other STD prevention; increasing adolescent access to key sexual health services (SHS); and establishing safe and supportive environments (SSE) for students and staff.

There are a total of nine questionnaires that are included in the burden table below. Each SEA will be completing activities for all approaches. Therefore, each SEA will complete a questionnaire for each approach (ESHE, SHS, and SSE). Likewise, each LEA will be completing activities for all approaches. Therefore, each LEA will complete a questionnaire for each approach (ESHE, SHS, and SSE). Each NGO will respond to the questionnaire for the approach they are implementing in support of SEAs or LEAs. Two NGOs will respond to the ESHE questionnaire, two NGOs will respond to the SHS questionnaire, and two NGOs will respond to the SSE questionnaire.

There are no costs to respondents other than their time. The estimated annualized burden for all funded agencies is 820 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Avg. burden per response (in hrs.)
State Education Agency	Exemplary Sexual Health Education Measures	19	2	4
	Sexual Health Services Measures	19	2	3
	Safe and Supportive Environments Measures	19	2	1
Local Education Agency	Exemplary Sexual Health Education Measures	17	2	6
	Sexual Health Services Measures	17	2	3
	Safe and Supportive Environments Measures	17	2	6
Non-governmental organization.	Exemplary Sexual Health Education Measures	2	2	30/60
	Sexual Health Services Measures	2	2	30/60
	Safe and Supportive Environments Measures	2	2	30/60

Leroy A. Richardson,

Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. To request more information on the below proposed project or to obtain a copy of the information collection plan and instruments, call 404-639-7570 or send comments to Leroy A. Richardson, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget (OMB) approval. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to

minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Written comments should be received within 60 days of this notice.

Proposed Project

Returning Our Veterans to Employment and Reintegration (ROVER): Work Stress and Assistance Animals—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Veterans with chronic posttraumatic stress disorder (PTSD) face barriers that prevent many of them from successfully reintegrating into society and returning to the work force. Various reports claim that higher unemployment rates and increased healthcare costs and utilization are associated with PTSD.

Symptoms associated with PTSD include diminished interest or participation in significant activities, feelings of detachment or estrangement from others, difficulty falling or staying

asleep, hyper vigilance, exaggerated startle response, difficulty with concentration or attention, and a restricted range of affect. Amelioration of PTSD symptoms is necessary to facilitate reintegration of veterans into society and the workforce; these benefits may also contribute positively to veterans' overall physical and psychological health.

A review of mostly anecdotal evidence suggests that animal-assisted interventions may have general therapeutic benefits for individuals with PTSD. Although a few reports tout the benefits of human-animal companionship, no studies have focused specifically on investigating the elements of human-animal interactions that might be therapeutic for individuals with PTSD or other stress-related disorders. Furthermore, there is scant evidence supporting the notion that service dogs or therapy dogs may directly improve functioning and, thereby, ease an individual's reintegration into society and employment.

NIOSH is seeking a 3-year approval from OMB on a research study aimed at understanding the benefits of human-animal interactions for the purpose of facilitating the reintegration and employment of veterans with PTSD. The efficacy of using service dogs or other types of assistance dogs to help veterans with disabilities return to work has not been established in well-controlled scientific studies, and fundamental empirical evidence is scant. As a step toward a greater understanding, a laboratory-based work-simulation study will be conducted to investigate the influence of the presence of and interactions with a dog on the reactivity and performance of veterans with and without PTSD to work-related and startle stressors. Results of the laboratory-based study will complement the findings of another project (OMB No. 09200985), which is gathering information about veterans perceptions
