SUMMARY: The Environmental Protection Agency has submitted a new information collection request (ICR), "Reporting and Recordkeeping for Asbestos Abatement Worker Protection" (EPA ICR No. 1246.12, OMB Control No. 2070-0072) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Public comments were previously requested via the **Federal Register** (78 FR 48431) on August 8, 2013, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 3, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OPPT-2012-0915, to (1) EPA online using www.regulations.gov (our preferred method), by email to oppt.ncic@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Abstract: EPA's asbestos worker protection rule is designed to provide occupational exposure protection to state and local government employees who are engaged in asbestos abatement activities in states that do not have state plans approved by the Occupational Safety and Health Administration (OSHA). The rule provides protection for public employees not covered by the OSHA standard from the adverse health effects associated with occupational exposure to asbestos. Specifically the rule requires state and local governments to monitor employee exposure to asbestos, take action to reduce exposure to asbestos, monitor employee health and train employees about asbestos hazards.

The rule includes a number of information reporting and recordkeeping requirements. State and local government agencies are required to provide employees with information about exposures to asbestos and the associated health effects. The rule also requires state and local governments to notify EPA before commencing any asbestos abatement project. State and local governments must maintain medical surveillance and monitoring records and training records on their employees, must establish a set of written procedures for respirator programs and must maintain procedures and records of respirator fit tests. EPA will use the information to monitor compliance with the asbestos worker protection rule. This request addresses these reporting and recordkeeping requirements.

Responses to the collection of information are mandatory (see 40 CFR 763 Subpart G). EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA and 40 CFR Part 2.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are state and local government employers in 25 states, the District of Columbia, and certain U.S. Territories that have employees engaged in asbestos-related construction, custodial and brake and clutch repair activities without OSHA-approved state plans.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 22,488 (total).

Frequency of response: On occasion.

Total estimated burden: 363,517 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$14,548,910 per year, includes \$0 annualized capital or operation and maintenance costs.

Changes in the estimates: There is a very minor decrease of 6 burden hours per year compared with that identified in the ICR currently approved by OMB (from 363,523 hours to 363,517 hours). This change is an adjustment and is explained in the supporting statement.

John Moses,

Director, Collection Strategies Division.

Abstract: Owners and operators of petroleum refinery wastewater systems are required to keep records of design and operating specifications of all equipment installed to comply with such standards such as water seals, roof seals, control devices, and other equipment. This information is necessary to ensure that equipment design and operation specifications are met, and the source is in compliance with NSPS subpart QQQ.

Form Numbers: None.

Respondents/affected entities:

Petroleum refinery wastewater systems.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQQ)

Estimated number of respondents: 135 (total).

Frequency of response: Initially, occasionally, and semiannually

Total estimated burden: 9,237 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$921,126 (per year), includes \$17,550 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. The increase in respondent and Agency costs from the most recently approved ICR is due to an adjustment in labor rates. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

Director, Collection Strategies Division.
