Department of the Army

Draft Environmental Impact Statement for Short-Term Projects and Real Property Master Plan Update for Fort Belvoir, Virginia

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The Department of the Army announces the availability of the Draft Environmental Impact Statement (DEIS) for the proposed update of the Real Property Master Plan (RPMP) for Fort Belvoir, Virginia, which includes proposed short-term projects and long-term development. In accordance with the National Environmental Policy Act (NEPA), the DEIS analyzes the environmental impacts associated with the proposed short-term projects, long-term development, and anticipated land use changes designated in an updated RPMP. The short-term projects are proposed for implementation by 2017. The long-term development projects are proposed for implementation by 2030. The DEIS assesses potential environmental impacts associated with future development and management of land, facilities, resources, and infrastructure. The updated RPMP incorporates adjustments to the land use plan in the RPMP that were made in the Final EIS for the Implementation of 2005 Base Realignment and Closure (BRAC) Recommendations and Related Army Actions at Fort Belvoir, Virginia (2007) and BRAC-related changes made since 2007.

DATES: The public comment period will end 60 days after publication of the NOA in the **Federal Register** by the U.S. Environmental Protection Agency.

ADDRESSES: Please send written comments to: Fort Belvoir Directorate of

Public Works, Environmental and Natural Resources Division, Re: Real Property Master Plan EIS, 9430 Jackson Loop, Suite 200, Fort Belvoir, VA 22060-5116; or by email to imcom.fortbelvoir.dpw.environmental@us.army.mil.

FOR FURTHER INFORMATION CONTACT:

Please contact: Fort Belvoir Directorate of Public Works, Environmental and Natural Resources Division, (703) 806-3193 or (703) 806-0020, during normal working business hours, Monday through Friday, 8 a.m. to 4:00 p.m.; or by email to imcom.fortbelvoir.dpw.environmental@us.army.mil.

SUPPLEMENTARY INFORMATION: The RPMP and the DEIS focus on Fort Belvoir's Main Post (7,700 acres) and the Fort Belvoir North Area (800 acres, formerly called the Engineer Proving Ground). The RPMP update does not cover Fort Belvoir property at Rivanna Station in Charlottesville, VA; the Mark Center in Alexandria, VA; or the Humphreys Engineer Center, adjacent to Main Post.

The DEIS analyzes the environmental impacts of the short-term projects currently programmed for construction in fiscal years 2013 to 2017. These projects include new office buildings, community and recreational facilities, a Fisher House, industrial and maintenance facilities, roads, a new gate, and the National Museum of the U.S. Army. Some projects have already begun or have been completed; the cumulative impacts of these projects are analyzed in the DEIS.

The Army is also updating its RPMP for Fort Belvoir by analyzing the off-post and on-post environmental impacts of reasonably foreseeable future development. The DEIS assesses the potential direct, indirect, and cumulative environmental impacts associated with updating the RPMP to meet the Army's current and future planning needs. Additional site-specific NEPA analyses will be prepared, as required, for the short-term and long-term projects identified in the RPMP.

Four alternatives are analyzed in this DEIS: No Action, Full Implementation, Modified Long-Term, and Modified Short-Term. The alternatives reflect various scenarios for short-term and long-term development. Other alternatives are considered in the DEIS, but they were determined not to be reasonable and therefore not subject to further analysis.

(1) The No Action Alternative proposes maintaining current conditions and the 1993 RPMP (as amended in the 2007 BRAC EIS) would remain in effect. The workforce would remain near the post-BRAC, September,
