

DISPOSITION OF DOE COMMENTS ON DRAFT RECOMMENDATION 2014-1—Continued

DOE comment	Board response	Revised wording
Regarding Action 2e, the intent of this element is unclear since the Department already has continuous improvement processes in place and processes for including lessons learned during implementation of DOE directives into future directive revisions. In addition, Action 2e appears to imply that improvement should be made to the emergency management directive on a one-time basis and that the directive should not be changed until after program reviews called for in Action 1 are completed. The Department recommends a clarification of the intent of this action.	Based on DOE's comment, the Board acknowledges that clarification of the intent of this element is necessary. The clarification that DOE requested can be accomplished by phrasing the required element more simply as "Vulnerabilities identified during independent assessments".	2.e Vulnerabilities identified during independent assessments.
