

Card and Ecosystem Assessment to include in the NOAA's Ecosystem Considerations report. This report is produced annually as part of the Stock Assessment and Fishery Evaluation report for the North Pacific Fishery Management Council. The format of the new GOA Report Card and Ecosystem Assessment will be similar to those that have been produced in recent years for the eastern Bering Sea and Aleutian Islands.

The primary recipients, considered to be the stakeholders, of the Report Card and Ecosystem Assessment are those involved with the fishery quota-setting process for the North Pacific Fisheries Management Council. This includes the Science and Statistical Committee and the regional Plan Teams, which of are composed of mainly federal and state scientists, academics, and other individuals. Additional recipients include the Advisory Panel, Council, and stock assessment scientists. The Report Card and Ecosystem Assessment are also made available to the public.

For the purposes of this project, ecosystem indicators are defined as time-series of data that measure some component of the ecosystem. Hundreds of indicators are available for the GOA, which is defined as the Canadian-U.S. boundary at Dixon Entrance to the east and False Pass to the west. The main objective of the survey is to have participants rank the importance of ecosystem indicators among lists of

indicators that are presented; the surveys will then be compiled to generate a list of top indicators. We have developed a non-exhaustive list of about 75 ecosystem indicators that are grouped by categories based on ecosystem components, such as forage fish or seabirds. Participants will be asked to select the top three within each category, then the top ten among all categories. Space is provided for suggestions of additional indicators not included. We will use these rankings to form the basis of a new GOA report card and ecosystem assessment.

Affected Public: Individuals; not-for-profit institutions; state, local and tribal government; business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Voluntary.

All submissions in these Sunset Reviews must be filed in accordance with the Department's regulations regarding format, translation, and service of documents. These rules, including electronic filing requirements via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"), can be found at 19 CFR 351.303.¹

Revised Factual Information Requirements

This notice serves as a reminder that any party submitting factual information

in an AD/CVD proceeding must certify to the accuracy and completeness of that information.² Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all AD/CVD investigations or proceedings initiated on or after August 16, 2013.³ The formats for the revised certifications are provided at the end of the *Final Rule*. The Department intends to reject factual submissions if the submitting party does not comply with the revised certification requirements.

On April 10, 2013, the Department published *Definition of Factual Information and Time Limits for Submission of Factual Information: Final Rule*, 78 FR 21246 (April 10, 2013), which modified two regulations related to antidumping and countervailing duty proceedings: the definition of factual information (19 CFR 351.102(b)(21)), and the time limits for the submission of factual information (19 CFR 351.301). The final

rule identifies five categories of factual information in 19 CFR 351.102(b)(21), which are summarized as follows: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by the Department; and (v) evidence other than factual information described in (i)-(iv). The final rule requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. The final rule also modified 19 CFR 351.301 so that, rather than providing general time limits, there are specific time limits based on the type of factual information being submitted. These modifications are effective for all segments initiated on or after May 10, 2013. Review the final rule, available at <http://>
