SUPPLEMENTARY INFORMATION:

I. Abstract

The President's Proclamation on Steel Safeguards mandated that the Departments of Commerce and Treasury institute an import licensing system to facilitate the monitoring of certain steel imports in 2002.

Regulations were established that implemented the Steel Import Monitoring and Analysis (SIMA) System and expanded on the licensing system in 2006 for steel that was part of those safeguards. The import license information is necessary to assess import trends of steel products.

In order to effectively monitor steel imports, Commerce must collect and provide timely aggregated summaries about the imports. The Steel Import License is the tool used to collect the necessary information. The Census Bureau currently collects import data and disseminates aggregate information about steel imports. However, the time required to collect, process, and disseminate this information through Census can take up to 90 days after importation of the product, giving interested parties and the public far less time to respond to injurious sales.

II. Method of Collection

The license application can be submitted electronically via the Commerce Web site (<http://enforcement.trade.gov/steel/license/>) or completed electronically and emailed or faxed to the Department.

Narrow Woven Ribbon With Woven Selvedge From the People's Republic of China: Final Results of Administrative Review; 2012–2013

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On June 9, 2014, the Department of Commerce (the “Department”) published the preliminary results and partial rescission of the 2012–2013 administrative review of the antidumping duty order on narrow woven ribbon with woven selvedge (“NWR”) from the People's Republic of China (“PRC”), in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (“the Act”).¹ The period of review (“POR”) is September 1, 2012, through August 31, 2013. Because the PRC-wide entity failed to cooperate to the best of its ability in complying with our requests for information, we preliminarily determined an estimated weighted-average dumping margin for the PRC-wide entity based on facts available with an adverse inference (“AFA”). The Department invited interested parties to comment on the *Preliminary Results*. No parties commented. Accordingly, our final results remain unchanged from the *Preliminary Results*.

DATES: *Effective Date:* October 10, 2014.
