

awards. In making these draft recommendations, the SAB requires full and frank advice from the STAA Committee. This advice will involve professional judgments on the relative merits of various employees and their respective work. Such personnel matters involve the discussion of information that is of a personal nature and the disclosure of which would be a clearly unwarranted invasion of personal privacy and, therefore, are protected from disclosure by section (c)(6) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)(6). Minutes of the STAA Committee teleconference will be kept and certified by the chair.

Dated: October 8, 2014.

Gina McCarthy,
Administrator.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[3060-0207]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control

number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before December 22, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418-7866.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0207.

Title: Part 11—Emergency Alert System (EAS).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Businesses or other for-profit; not-for-profit institutions; and state, local or tribal government.

Number of Respondents and

Responses: 3,569,028,080 respondents; 3,569,028 responses.

Estimated Time per Response: .0229776 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Voluntary response for business or other for-profit and not-for-respondents. Mandatory response for state, local or tribal government. Statutory authority for this information collection is contained in 47 U.S.C 154(i) and 606 of the Communications Act of 1934, as amended.

Total Annual Burden: 82,008 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission seeking and extension of this information collection in order to obtain the full three year approval from OMB. There are no changes in any of the reporting and/or recordkeeping requirements. There is no change to the Commission's previous burden estimated.

The Commission established a voluntary electronic method of complying with the reporting that EAS participants must complete as part of

the national EAS test. This electronic submission system will impose a lesser burden on EAS test participants because they can input electronically (via a web-based interface) the same information into a confidential database that the Commission would use to monitor and assess the test. Test participants would submit the identifying data prior to the test date. On the day of the test, EAS participants would be able to input immediate test results. They would input the remaining data called for by our reporting rules within the 45 day period. Structuring an electronic reporting system in this fashion will allow the participants to populate the database with known information prior to the test, and thus be able to provide the Commission with actual test data, both close to real-time and within a reasonable period in a minimally burdensome fashion

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[3060-0813]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to

further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before December 22, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418-7866.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0813.
Title: Section 20.18, Enhanced 911 Emergency Calling Services.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other-for-profit and State, local and tribal governments.

Number of Respondents and Responses: 999 Respondents; 2,580 Responses.

Estimated Time per Response: 0.5-1 hours.

Frequency of Response: One-time third party disclosure requirements.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. Sections 151, 152, 154(i), 154(j), 154(o), 251(e), 303(b), 303(g), 303(r), 316, and 403.

Total Annual Burden: 2,473 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The information collection entailed in a Public Safety Answering Point (PSAP) request is necessary to initiate E911 service, and serves as notice to the CMRS provider. The notification requirement on PSAPs will be used by the carriers to verify that wireless E911 calls are referred to PSAPs who have the technical capability to use the data to the caller's benefit. If the carrier challenges the

validity of the request, the request will be deemed valid if the PSAP making the request provides the following information:

A. Cost Recovery. The PSAP must demonstrate that a mechanism is in place by which the PSAP will recover its costs of the facilities and equipment necessary to receive and utilize the E911 data elements;

B. Necessary Equipment. The PSAP must provide evidence that it has ordered the equipment necessary to receive and utilize the E911 data elements; and

C. Necessary Facilities. The PSAP must demonstrate that it has made a timely request to the appropriate local exchange carrier for the necessary trunking and other facilities to enable E911 data to be transmitted to the PSAP.

In the alternative, the PSAP may demonstrate that a funding mechanism is in place, that it is E911 capable using a Non-Call Associated Signaling technology, and that it has made a timely request to the appropriate LEC for the necessary ALI database upgrade.

Federal Communications Commission.

BILLING CODE 6712-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the National Coordinator for Health Information Technology

Announcement of Requirements and Registration for "Market R&D Pilot Challenge"

Authority: 15 U.S.C. 3719.

AGENCY: Office of the National Coordinator for Health Information Technology, HHS.

Award Approving Official: Dr. Karen DeSalvo, National Coordinator for Health Information Technology.

ACTION: Notice.

SUMMARY: Developers and innovators have many great ideas and products that could improve the U.S. health care system and make life better for patients and care providers. However, effecting actual change is extremely difficult due to the high barriers to entry in the health IT space. Once an innovative new product has been developed, it needs to be tested in real-life care settings. But providers can be hesitant to host this testing for a myriad of reasons—they may have had bad experiences in the past, be anxious about deploying new

tools that may disrupt their workflows, or be wary of encountering more problems than the solution solves. Without this testing, it cannot be determined how well the product actually works, making it difficult for the developers to identify the changes that need to be made to the product to make it more effective. Furthermore, without evidence of the uses a product can provide it is that much harder to acquire the venture funding that can fuel further advancement and lead to successful entry in the marketplace.

The Market R&D Pilot Challenge is intended to help bridge this gap by bringing together health care organizations ("Hosts") and innovative companies ("Innovators") through pilot funding awards and facilitated matchmaking. The Challenge seeks to award pilot proposals in three different domains: Clinical environments (e.g., hospitals, ambulatory care, surgical centers), public health and community environments (community-based personnel such as public health departments, community health workers, mobile medical trucks, school- and jail-based clinics), and consumer health (e.g., self-insured employers, pharmacies, laboratories). Hosts and Innovators will submit joint pilot proposals, with the winners, as determined by an expert panel, proceeding to implement their pilots.

The Challenge's primary goals are to:

- Encourage early collaboration between entrepreneurs, medical and public health personnel, patients, and the research community to link innovation in health IT to innovation in care delivery;

- De-risk early stage health IT and digital health products for future clinical testing and investment;

- Encourage uptake of and ensure the market is aware of ONC standards and functions within certified electronic health record technologies; and

- Explore evidence collection methods and relevant metrics for early stage health IT products that may better match agile software development.

The statutory authority for this challenge competition is Section 105 of the America COMPETES Reauthorization Act of 2010 (Pub. L. 111-358).

DATES:

Applicants:

- Challenge launch: October 20, 2014.
- Matchmaking events: Early December, 2014 to mid-January, 2015.
- Submissions due: March 2, 2015.
- Winners announced: April 30, 2015.

Winners:

- Pilot preparation and setup: May-July, 2015.
