SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Alternative Method of Compliance for Certain Simplified Employee Pensions information collection. The alternative disclosure arrangement established through regulations 29 CFR 2520.104-49 relieves a sponsor of a non-model Simplified Employee Pension (SEP) of most Employee Retirement Income Security Act (ERISA) Title I reporting and disclosure requirements. In addition, disclosure requirements set forth in the regulation ensure an administrator of a non-model SEP provides participants with specific written information concerning the SEP. This information collection requirement generally requires timely written disclosure to employees eligible to participate in a non-model SEP, including specific information concerning: Participation requirements; allocation formulas for employer contributions; designated contact persons for further information; and, for employer recommended Individual Retirement Accounts (IRAs), specific IRA terms—such as rates of return and any restrictions on withdrawals. Moreover, general information is required that provides a clear explanation of the operation of the non-model SEP; participation requirements, and any withdrawal restrictions; and the tax treatment of the SEP-related IRA. Furthermore, statements must be provided to inform participants of: Any other IRAs under the non-model SEP other than that to which employer contributions are made; any options regarding rollovers and contributions to other IRAs; descriptions of U.S. Department of the Treasury, Internal Revenue Service disclosure requirements to participants and information regarding social security integration (if applicable); and timely notification of any amendments to the terms of the non-model SEP. ERISA section 110 authorizes this information collection. See 29 U.S.C. 1030.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is

approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0034.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on December 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 21, 2014 (79 FR 29208).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0034. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
