#### **Draft Programmatic Candidate Conservation Agreements With Assurances and Receipt of Applications for Enhancement of Survival Permits for the Greater Sage-Grouse in Oregon; and Draft Environmental Assessment**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), have received applications from five Soil and Water Conservation Districts (SWCDs) for enhancement of survival (EOS) permits under the Endangered Species Act of 1973, as amended (ESA). The permit applications include proposed programmatic candidate conservation agreements with assurances (CCAAs) for the greater sage-grouse, addressing conservation activities and ranching operations in Baker, Crook, Deschutes, Grant, Lake, Malheur, and southern Union Counties, Oregon. The Service also announces the availability of a draft environmental assessment (EA) addressing the proposed CCAAs and issuance of EOS permits in accordance with the National Environmental Policy Act of 1969, as amended (NEPA). We invite comments from all interested parties on the applications, including the CCAAs and the EA.

**DATES:** To ensure consideration, written comments must be received from interested parties no later than January 2, 2015.

**SUPPLEMENTARY INFORMATION:** We have received five applications—from Baker Valley SWCD, Crook County SWCD, Grant SWCD, Lakeview SWCD, and Malheur County SWCD—for EOS permits under section 10(a)(1)(A) of the ESA for incidental take of sage-grouse (*Centrocercus urophasianus*). Each application includes a CCAA covering sage-grouse habitat on private lands in one or two counties in Oregon. The Service and the SWCDs prepared the CCAAs to provide landowners with the opportunity to voluntarily conserve the greater sage-grouse and its habitat while carrying out ranch operations.

#### **Background Information**

Private and other non-Federal property owners are encouraged to enter into CCAAs, in which they voluntarily undertake management activities on their properties to enhance, restore, or maintain habitat benefiting species that are proposed for listing under the ESA, candidates for listing, or species that may become candidates or proposed for listing. EOS permits are issued to applicants in association with approved CCAAs to authorize incidental take of the covered species from covered activities, should they become listed. Through a CCAA and its associated EOS permit, the Service provides assurances to property owners that they will not be subjected to increased land use restrictions if the covered species become listed under the ESA in the future, provided certain conditions are met.

Application requirements and issuance criteria for EOS permits for CCAAs are found in the Code of Regulations (CFR) at 50 CFR 17.22(d) and 17.32(d), respectively. See also our joint policy on CCAAs, which we published in the **Federal Register** with the Department of Commerce's National Oceanic and Atmospheric Administration, National Marine Fisheries Service (64 FR 32726; June 17, 1999).

On March 23, 2010, the Service determined that listing the greater sage-grouse under the ESA (16 U.S.C. 1538) was warranted, but precluded by the need to address higher priority species
