Title: Ārrival and Departure Record, Nonimmigrant Visa Waiver Arrival/ Departure, and Electronic System for Travel Authorization (ESTA).

OMB Number: 1651–0111. *Form Numbers:* I–94 and I–94W. Abstract:

Background

CBP Forms I-94 (Arrival/Departure Record) and I-94W (Nonimmigrant Visa Waiver Arrival/Departure Record) are used to document a traveler's admission into the United States. These forms are filled out by aliens and are used to collect information on citizenship, residency, and contact information. The data elements collected on these forms enable the DHS to perform its mission related to the screening of alien visitors for potential risks to national security, and the determination of admissibility to the United States. The Electronic System for Travel Authorization (ESTA) applies to aliens traveling to the United States under the Visa Waiver Program (VWP) and requires that VWP travelers provide information electronically to CBP before embarking on travel to the United States. Travelers who are entering under the VWP in the air or sea environment, and who have a travel authorization obtained through ESTA, are not required to complete the paper Form I–94W.

Pursuant to an interim final rule published on March 27, 2013 in the **Federal Register** (78 FR 18457) related to Form I–94, CBP has partially automated the Form I–94 process. CBP now gathers data previously collected on the paper Form I–94 from existing automated sources in lieu of requiring passengers arriving by air or sea to submit a paper I–94 upon arrival. Passengers can access and print their electronic I–94 via the Web site at www.cbp.gov/I94.

ESTA can be accessed at http://www.cbp.gov/xp/cgov/travel/id_visa/esta/. Samples of CBP Forms I–94 and I–94W can be viewed at: http://www.cbp.gov/document/forms/form-i-94-arrivaldeparture-record and http://www.cbp.gov/document/forms/form-i-

94w-visa-waiver-arrivaldeparturerecord.

Recent and Proposed Changes

In response to the increasing concerns regarding national security, DHS used the emergency Paperwork Reduction Act process to strengthen the security of the VWP by adding data elements to ESTA and to Form I–94W. DHS determined that the addition of these new data elements improves the Department's ability to screen prospective VWP travelers while more accurately and effectively identifying those who pose a security risk to the United States and facilitates adjudication of ESTA applications.

The following data elements are either new elements that were approved in the emergency PRA submission or data elements that were collected previously that were changed from "optional" to "mandatory" on the ESTA application:

Abstract: The Automated Commercial Environment (ACE) is a trade processing system that will eventually replace the Automated Commercial System (ACS), the current import system for U.S. Customs and Border Protection (CBP) operations. ACE is authorized by Executive Order 13659 which mandates implementation of a Single Window for trade. See 79 FR 10655 (February 25, 2014). Once ACE is fully implemented, all related CBP trade functions and the trade community will be supported from a single common user interface.

Currently, ACE is used for imported merchandise by brokers, carriers, sureties, service providers, facility operators, foreign trade zone operators, cart men and lighter men. In order to establish an ACE Portal account, participants submit information such as their name, their employer identification number (EIN) or social security number, and if applicable, a statement certifying their capability to connect to the Internet. This information is submitted through the ACE Secure Data Portal which is accessible at: http://www.cbp.gov/trade/ automated.

CBP is proposing to add export functionality to the system which will allow participation from the exporter community. Trade members wishing to establish an exporter account will need to submit the following data elements:

- 1. Account Type
