

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2014–0122]****Petition for Waiver of Compliance**

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 19, 2014, the City of Ironton (City), Ohio, has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings. FRA assigned the petition Docket Number FRA–2014–0122.

The City is seeking a waiver from the requirements of 49 CFR 222.21(a) in order to eliminate the routine sounding of locomotive horns by trains approaching the McPherson Street highway-rail grade crossing. The crossing is closed at all times except when flood gates must be installed and the crossing becomes the only access route for the citizens in the area. The City places a policeman at the crossing on a 24-hour basis when the crossing is open to highway traffic. The City would expect that locomotive horns would be sounded as trains approach the crossing during the time that the crossing is open to highway traffic.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

In addition to payment of the application fee, licensing requirements include, but are not limited to, completion of an extensive environmental impact assessment and financial resources review which would include public participation.
