### Cross-Media Electronic Reporting: Authorized Program Revision Approval, San Joaquin Valley Air Pollution Control District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's approval of the San Joaquin Valley Air Pollution Control District's request to revise its State Operating Permit Programs EPA-authorized program to allow electronic reporting.

**DATES:** EPA's approval is effective December 23, 2014.

**FOR FURTHER INFORMATION CONTACT:**

Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, [seeh.karen@epa.gov](mailto:seeh.karen@epa.gov).

**SUPPLEMENTARY INFORMATION:** On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized

programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On February 3, 2012, the San Joaquin Valley Air Pollution Control District (SJVAPCD) submitted an application entitled "San Joaquin Valley Air Pollution Control District Title V Electronic Reporting System" for revision of its EPA-authorized authorized Part 70 program under title 40 CFR. EPA reviewed SJVAPCD's request to revise its EPA-authorized Part 70—State Operating Permit Programs program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve the District's request to revise its Part 70—State Operating Permit Programs program to allow electronic reporting under 40 CFR part 70 is being published in the **Federal Register**.

SJVAPCD was notified of EPA's determination to approve its application with respect to the authorized program listed above.

#### SUPPLEMENTARY INFORMATION:

##### I. Additional Information About the Proposed Settlement Agreement

The proposed settlement agreement will partially resolve lawsuits seeking review of EPA’s final rule entitled “National Emission Standards for Hazardous Air Pollutants for Polyvinyl Chloride and Copolymers Production,” 77 FR 22848, April 17, 2012, (“PVC NESHAP” or “2012 Rule”). On June 18, 2012, Petitioner Vinyl Institute and others petitioned for reconsideration and to stay the 2012 Rule pending reconsideration with EPA, and on September 28, 2012, EPA granted administrative reconsideration of the 2012 Rule on at least Petitioners’ claims that the public was not afforded a reasonable opportunity to comment on emission limits in the final 2012 Rule for process wastewater. The proposed settlement agreement states that no later than January 21, 2015, EPA will sign a direct final rule and parallel proposal withdrawing the total non-vinyl chloride organic hazardous air pollutant (“TOHAP”) process wastewater emission limits for new and existing area sources. The proposed settlement agreement provides that to the extent that EPA establishes new TOHAP process wastewater emission limits for existing and new area sources, those emission limits will be set pursuant to the reconsideration process or other separate rulemaking, and not through the direct final or final rule described in the settlement agreement. Under the proposed settlement agreement, if EPA receives adverse comments on and withdraws the direct final rule, EPA will make its best efforts to sign a notice taking final action on the parallel proposal within 15 days of the close of the comment period. In addition, the proposed settlement agreement states that Oxy Vinyls, LP will move to dismiss its petition for review, and the remaining Petitioners will move to dismiss the issue of the existing and new area source TOHAP process wastewater emission limits from their petitions for review within 7 days following the effective date of the direct final rule or a final rule withdrawing the existing and new area source TOHAP

process wastewater limits. Nothing in the proposed settlement agreement limits or modifies EPA’s discretion under the Clean Air Act in either the related direct final rulemaking process or otherwise.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed settlement agreement from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this settlement agreement should be withdrawn, the terms of the agreement will be affirmed.
