Title: Exemption from Payment of Regulatory Fees When Claiming Non-Profit Status.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Not-for-profit organizations and business or other for-profit organizations.

Number of Respondents and Responses: 19,169 respondents; 19,269 responses.

Estimated Time per Response: 30 minutes (0.5 hours).

Frequency of Response: Annual, on occasion and one-time reporting requirements and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in 47 U.S.C. 159.

Total Annual Burden: 9,635 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Licensees or regulatees concerned about disclosure of sensitive information in any submissions to the Commission may request confidential treatment pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Federal Communications Commission (FCC), in accordance with the Communications

Act of 1934, as amended, is required to assess and collect regulatory fees from its licensees and regulatees in order to recover its costs incurred in conducting enforcement, policy and rulemaking, international and user information services.

The purposes for the requirements are to facilitate: (1) The statutory provision that non-profit entities be exempt from payment of regulatory fees; and (2) the FCC's ability to audit regulatory fee payment compliance.

In order to develop a *Schedule of Regulatory Fees*, the FCC must, as accurately as possible, estimate the number of fee payment entities and distribute the costs. These estimates must be adjusted to account for any licensees or regulatees that are exempt from payment of regulatory fees. The FCC, therefore, requires all licensees and regulatees that claim exemption as non-profit entities to provide one-time only documentation sufficient to establish their non-profit status. Further, the FCC is requesting that it be similarly notified if for any reason that status changes. The documentation necessary to provide to the Commission will likely take the form of an Internal Revenue Service (IRS) Determination Letter, a state charter indicating non-profit status, proof of church affiliation indicating tax exempt status, etc.

The FCC is requiring licensees or regulatees to maintain and to make available, upon request, for inspection such records they would normally keep in the course of doing business.

This will enable the FCC to conduct any audits deemed appropriate to determine whether fee payments were made correctly, and will help ensure compliance with the FCC fee exemption policies.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of the Managing Director.

Total Annual Burden: 3,286 hours.

Total Annual Cost: \$755,400.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060–0686. The purpose of this revision is to obtain OMB approval of rules adopted in the Commission's Report and Order in IB Docket No. 12–299, FCC 14–48, adopted and released on August 22, 2014 (Report and Order). In the Report and Order, the Commission eliminated the effective competitive opportunities (ECO) test from sections 63.11(g)(2) and 63.18(k) of

the Commission's rules, 47 CFR 63.11(g)(2), 63.18(k), which apply to applications filed under section 63.18, 47 CFR 63.18, for authority to provide U.S.-international telecommunications service pursuant to section 214 of the Communications Act of 1934, as amended (Communications Act), 47 U.S.C. 214, and to foreign carrier affiliation notifications filed under section 63.11 of the Commission's rules, 47 CFR 63.11. The Commission is also making adjustments to the hour and cost burdens associated with other rules and requirements covered by this information collection.

The information will be used by the Commission staff in carrying out its duties under the Communications Act. The information collections are necessary largely to determine the qualifications of applicants to provide common carrier international telecommunications service, including applicants that are, or are affiliated with, foreign carriers, and to determine whether and under what conditions the authorizations are in the public interest, convenience, and necessity. The information collections are also necessary to maintain effective oversight of U.S. international carriers generally.

If the collections are not conducted or are conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services, and the Commission will be unable to carry out its mandate under the Communications Act. In addition, without the information collections, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the WTO Basic Telecom Agreement because these collections are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns.

OMB Control Number: 3060–0944.

Title: Cable Landing License Act, 47 CFR 1.767; 1.768; Executive Order 10530.

Type of Review: Revision of a currently approved collection.

Respondents: Business and other for-profit.

Number of Respondents and Responses: 38 respondents; 94 responses.

Estimated Time per Response: 0.50 hour–17 hours.

Frequency of Response: On occasion reporting requirement, Quarterly

reporting requirement, Recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, Executive Order 10530, section 5(a), and the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i)–(j), 155, 303(r), 309, 403.

Total Annual Burden: 421 hours.

Total Annual Cost: \$88,505.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission (Commission) is requesting that the Office of Management and Budget (OMB) approve a revision of OMB Control No. 3060–0944. The purpose of this revision is to obtain OMB approval of rules adopted in the Commission's Report and Order in IB Docket No. 12–299, FCC 14–48, adopted and released on August 22, 2014 (Report and Order). In the Report and Order, the Commission eliminated the effective competitive opportunities (ECO) test from sections 1.767(a)(8) and 1.768(g)(2) of the Commission's rules, 47 CFR 1.767(a)(8), 1.768(g)(2), which apply to cable landing license applications filed under the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, and section 1.767 of the Commission's rules, 47 CFR 1.767, and to foreign carrier affiliation notifications filed under section 1.768 of the Commission's rules, 47 CFR 1.768. The Commission is also making adjustments to the hour and cost burdens associated with other rules and requirements covered by this information collection.

The information will be used by the Commission staff in carrying out its duties under the Submarine Cable Landing License Act of 1921, 47 U.S.C. 34–39, Executive Order 10530, section 5(a), and the Communications Act of 1934, as amended. The information collections are necessary largely to determine whether and under what conditions the Commission should grant a license for proposed submarine cables landing in the United States, including applicants that are, or are affiliated with, foreign carriers in the destination market of the proposed submarine cable. Pursuant to Executive Order No. 10530, the Commission has been delegated the President's authority under the Cable Landing License Act to grant cable landing licenses, provided that the

Commission must obtain the approval of the State Department and seek advice from other government agencies as appropriate. If the collection is not conducted or is conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services and facilities, and the Commission will be unable to carry out its mandate under the Cable Landing License Act and Executive Order 10530. In addition, without the collection, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Trade Organization (WTO) Basic Telecom Agreement because certain of these information collection requirements are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns.
