Robert H. Squibb, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; (301) 504–7815, or by email to: rsquibb@cpsc.gov.

SUPPLEMENTARY INFORMATION:

A. Background

Section 5(a) of the Consumer Product Safety Act (CPSA), 15 U.S.C. 2054(a), authorizes the Commission to conduct studies and investigations relating to the causes and prevention of deaths, accidents, injuries, illnesses, other health impairments, and economic losses associated with consumer products. Section 5(b) of the CPSA, 15 U.S.C. 2054(b), further provides that the Commission may conduct research, studies and investigations on the safety of consumer products or test consumer products and develop product safety test methods and testing devices.

To help identify and evaluate product-related incidents, Commission staff invites and obtains direct feedback from consumers on issues related to product safety, such as recall effectiveness, product use, and perceptions regarding safety issues. By convening focus groups to provide information regarding use of a specific consumer product or class of consumer products, including recalled products, CPSC has collected valuable information. For example, Commission staff has used focus groups to assess consumers' behavior related to product recalls, pool and spa safety, the Consumer Product Safety Risk Management System, recreational off-road vehicle restraint systems, and cpsc.gov Web site redesign.

The information that the CPSC collects from future focus groups will

help inform the Commission's identification and evaluation of consumer products and product use, by providing insight and information into consumer perceptions and usage patterns. In some cases, one-on-one interviews may be conducted as a more in-depth extension of a focus group or in place of a traditional focus group. This information may also assist the Commission in its efforts to support voluntary standards activities and help CPSC identify consumer safety issues requiring additional research. In addition, based on the information obtained, CPSC may be able to provide safety information to the public that is easier to read and understood by a wider range of consumers.

B. Burden Hours

1. Respondents

The CPSC seeks the proposed extension of approval of a collection of information for consumer focus groups that may be conducted by the CPSC over the next three years. Staff estimates that over the 3-year period of this request, the Commission will conduct up to 20 focus groups, with 10 persons each, and 10 one-on-one interviews for a variety of projects. The total hours of burden to the respondents are (an estimated 4 hours per person for each focus group × 200 participants) + (an estimated 30 minutes per person for each individual interview × 10 participants) = 1,100 hours (367 hours per year for 3 years). The total annual cost is estimated at 1,100 × \$31.16 (U.S. Department of Labor, Employer Costs for Employee Compensation, September 2013) = \$34,276 (\$11,425.33 per year for 3 years).

2. Federal Government

The total cost of this collection to the federal government is estimated at approximately \$140,000. This represents nine months of staff time annually. This sum includes anticipated travel costs expended for meeting with contractors and contracts for conducting focus groups or one-on-one interviews as well as salaries and benefits (\$129,419). This estimate uses an annual total compensation of \$119,238 (the equivalent of a GS–14 Step 5 employee), with an additional 30.9 percent added for benefits (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” September 2013, Table 1, percentage of wages and salaries for all civilian management,

professional, and related employees), for a total annual compensation of \$172,559.

C. Requests for Comments

The Commission invites comments on the proposed collection of information, including:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic, or other technological collection techniques, or other forms of information technology.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

36(b)(1) Arms Sales Notification

AGENCY: Department of Defense, Defense Security Cooperation Agency.

ACTION: Notice.

SUMMARY: The Department of Defense is publishing the unclassified text of a section 36(b)(1) arms sales notification. This is published to fulfill the requirements of section 155 of Public Law 104–164 dated July 21, 1996.

FOR FURTHER INFORMATION CONTACT: Ms. B. English, DSCA/DBO/CFM, (703) 601–3740.

The following is a copy of a letter to the Speaker of the House of Representatives, Transmittals 13–61 with attached transmittal and policy justification.

Dated: February 6, 2014.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DEFENSE SECURITY COOPERATION AGENCY
201 12TH STREET SOUTH, STE 203
ARLINGTON, VA 22202-5408

The Honorable John A. Boehner
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

FEB 04 2014

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 13-61, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Iraq for defense articles and services estimated to cost \$700 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

J.W. Rixey
Vice Admiral, USN
Director

(viii) *Date Report Delivered to Congress: 4 February 2014*

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Iraq—Air Traffic Control and Landing System

The Government of Iraq has requested a proposed sale of commercially available FAA Air Traffic Control (ATC) Equipment Suite and Airfield Navigational Aids Suites to be installed at four bases (Tikrit, Al Basra, Al Kut, and Taji). The ATC Equipment Suite includes 4 ASR-11 Airport Surveillance Radars, 10 ATC Automation system with 10 controller consoles, 4 AutoTrac II Airfield Support and Navigation Suites, 2 Primary Search Radars and 2 Mono-pulse secondary surveillance radars. The Airfield Navigation Aids Suite includes 2 Very High Frequency Omni-directional Range (VORTAC) and 3 Instrument Landing Systems with Distance Measuring Equipment, 2 Airfield Lighting Systems with Flush Mounted Lights for the runway and taxiways, Air Traffic Control Tower Equipment Suite. Also provided are site surveys, system integration, installation, testing, repair and return, facilities, warranties, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics and program support. The estimated cost is \$700 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to

improve the security of a strategic partner. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the United States.

The proposed sale will contribute to Iraq's continued efforts toward rebuilding its airfield systems at Tikrit, Al Basra, Al Kut, and Taji Air Bases for near-term basing of multiple aircraft. The renovations and upgrades to the airfields and systems will allow for greater ease in launch and recovery of aircraft and will enhance the overall sustainment to aircraft and affiliated systems. This equipment aids Iraq's continuing reconstruction effort and directly improves Iraq's ability to control its own airspace.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is unknown and will be determined through a competitive process. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
