SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP
process, which started through a notice
in the **Federal Register** on July 30, 2013
(78 FR 18231). For more about the
refuges and our CCP process, please see
that notice.

The refuges are located in Central
Mississippi. They are two of seven
refuges in the Theodore Roosevelt NWR
Complex. The two refuges were
established for conservation purposes.
The enacting legislation for both refuges
is section 145 of Public Law 108-199,
the Consolidated Appropriations Act of
2004. This Act renamed The Bogue
Phalia Unit of Yazoo NWR as Holt
Collier NWR. This is the first NWR to
be named in honor of an African
American historical legend and famed
hunting guide to President Roosevelt.
Legislative authority for Holt Collier
NWR therefore also comes from the Fish
and Wildlife Coordination Act, which
established Yazoo NWR.

Holt Collier NWR consists of
approximately 2,233 acres of Farm
Service Agency lands in Washington
County, and it is located 5 miles east of
Hollandale in the Darlove area. Its
approved acquisition boundary is
18,000 acres. The refuge is open year-
round for wildlife-related activities such
as hunting, wildlife observation, and
nature photography. The refuge habitat
is former agricultural lands, most of

which, in the past 15 years, have been
reforested to bottomland hardwood.

Theodore Roosevelt NWR is located
in Sharkey County south of Cary,
Mississippi. Congress authorized 6,600
acres to be acquired through donation
and land exchange. To date 1,674 acres
have been established in fee title. The
habitat consists mainly of converted,
agricultural lands now reforested to
trees more indicative of the native
bottomland hardwood forest. Farmlands
and open water also occur. The refuge
is not open to the public. There are no
public facilities located on either refuge.

Background

The CCP Process

The National Wildlife Refuge (NWR)
System Improvement Act of 1997
(Improvement Act) requires us to
develop a CCP for each national wildlife
refuge. CCPs are developed to provide
refuge managers with a 15-year plan for
achieving refuges' purposes and
contributing toward the mission of the
NWR System, consistent with sound
principles of fish and wildlife
management, conservation, legal
mandates, and our policies. CCPs
describe a broad management direction
for conserving wildlife and their
habitats. They propose wildlife-
dependent recreational opportunities to
be made available to the public. These
include opportunities for hunting,
fishing, wildlife observation, wildlife
photography, and environmental
education and interpretation. We will
review the CCP annually and revise it as
needed in accordance with the
Improvement Act.

Priority resource issues addressed in
the Draft CCP/EA include: Fish and
Wildlife Populations, Habitat
Management, Resource Protection,
Visitor Services, and Refuge
Administration. See Chapter III in the
Draft CCP for a full description.

CCP Alternatives, Including Our Proposed Alternative (B)

We developed three alternatives for
managing the refuge (Alternatives A, B,
and C), with Alternative B as our
proposed alternative. A full description
of each alternative is in the CCP
(Chapter IV) and Chapters III and IV of
the EA. We summarize each alternative
below.

Alternative A: Current Management (No Action)

Alternative A continues the refuges'
limited management activities and
programs at levels similar to the current
and past few years of management.
Theodore Roosevelt NWR would remain
