[Investigation Nos. 701-TA-432 and 731-TA-1024-1028 (Second Review) and AA1921-188 (Fourth Review)]

Prestressed Concrete Steel Wire Strand From Brazil, India, Japan, Korea, Mexico, and Thailand

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), that revocation of the countervailing duty order on prestressed concrete steel wire strand ("PC strand") from India, the antidumping duty orders on PC strand from Brazil, India, Korea, Mexico, and Thailand, as well as the antidumping duty finding on PC strand from Japan, would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on November 3, 2014 (79 FR 65246) and determined on February 6, 2015, that it would conduct expedited reviews (80 FR 9747, February 24, 2015).

The Commission completed and filed its determinations in these reviews on April 10, 2015. The views of the Commission are contained in USITC Publication 4527 (April 2015), entitled *Prestressed Concrete Steel Wire Strand from Brazil, India, Japan, Korea, Mexico, and Thailand: Investigation Nos. 701-TA-432 and 731-TA-1024-1028 (Second Review) and AA1921-188 (Fourth Review)*.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On April 9, 2015, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Eastern District of Wisconsin in the lawsuit entitled *United States and the State of Wisconsin v. NCR Corp., et al.*, Case No. 10-cv-910 (E.D. Wis.).

In 2010, the United States and the State of Wisconsin filed a lawsuit against multiple defendants that had contributed to polychlorinated biphenyl ("PCB") contamination in sediment at the Lower Fox River and Green Bay Superfund Site in northeastern Wisconsin (the "Site"). That lawsuit—brought under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9601-75—sought enforcement of a U.S. Environmental Protection Agency order requiring cleanup work at the Site, reimbursement of response costs that the United States and the State have incurred in addressing the PCB contamination at the Site, and recovery of damages for injuries to natural resources resulting from the PCB contamination. The proposed Consent Decree is a partial settlement that requires two defendants, NCR Corporation and Georgia-Pacific Consumer Products LP, to fund and perform an estimated \$67 million in sediment remediation work at the Site in 2015. This partial settlement does not resolve all aspects of the ongoing lawsuit or all potential liabilities of NCR Corporation or Georgia-Pacific Consumer Products LP.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and the State of Wisconsin v. NCR Corp., et al.*, D.J.
