Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents,

including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before May 22, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A_Fraser@omb.eop.gov; and to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below.

SUPPLEMENTARY INFORMATION:

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95–20.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 3 respondents; 6 responses.

Estimated Time per Response: 2–50 hours.

Frequency of Response: On occasion; reporting requirements and third party disclosure.

Obligation to Respond: Required to retain or obtain benefits. Statutory authority for this information collection is in 47 U.S.C. 151, 152, 154, 161, 201–205, 208, 251, 260 and 271–276.

Total Annual Burden: 156 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. However, applicants may request confidential treatment of information they assert is confidential under 47 CFR 0.459 of the Commission’s rules.

Needs and Uses: The Commission has eliminated certain reporting requirements because the Bell Operating Companies (BOCs) are no longer required to file semi-annual reports with the Commission addressing Comparably Efficient Interconnection (CEI) and Open Network Architecture (ONA) services. BOCs are required to post their CEI plans and amendments on their publicly accessible Internet sites. The requirement extends to all CEI plans for intraLATA information services, telemessaging, or alarm monitoring services, and for new or amended payphone services. If the BOC receives a good faith request for a plan from someone who does not have Internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. The CEI plans will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0931.

Title: Section 80.103, Digital Selective Calling (DSC) Operating Procedures—Maritime Mobile Identity (MMSI).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for-profit entities and Federal Government.

Number of Respondents and Responses: 40,000 respondents; 40,000 responses.

Estimated Time per Response: .25 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this Information collection is in 47 U.S.C. 154, 303, 307(e), 309 and 332 of the Communications Act of 1934, as amended. The reporting requirement is contained in international agreements and ITU–R M.541.9.

Total Annual Burden: 10,000 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: Yes. The FCC maintains a system of records notice (SORN), FCC/WTB–1, “Wireless Services Licensing Records” that covers the collection, purpose(s), storage, safeguards, and disposal of the PII that marine VHF radio licensees maintain under 47 CFR 80.103.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all owners of Marine VHF radios with Digital Selective Calling (DSC) capability in this collection. The licensee records will be publicly available and routinely used in accordance with subsection (b) of the Privacy Act of 1974. FRN numbers and material which is afforded confidential treatment pursuant to a request made under 47 CFR 0.459 of the Commission's rules will not be available for public inspection. Any personally identifiable information (PII) that individual applicants provide is covered by a system of records, FCC/WTB–1, “Wireless Services Licensing Records”, and these and all other records may be disclosed pursuant to the Routine Uses as stated in the SORN.

Needs and Uses: The information collected is necessary to require owners of marine VHF radios with Digital Selective Calling (DSC) capability to register information such as the name, address, type of vessel with a private entity issuing marine mobile service identities (MMSI). The information would be used by search and rescue personnel to identify vessels in distress and to select the proper rescue units and search methods.

The requirement to collect this information is contained in international agreements with the U.S. Coast Guard and private sector entities that issue MMSI's.

The information is used by private entities to maintain a database used to provide information about the vessel owner in distress using marine VHF radios with DSC capability. If the data were not collected, the U.S. Coast Guard would not have access to this information which would increase the

time and effort needed to complete a search and rescue operation.
