

determined by APHIS to complete a pest risk analysis in accordance with international standards.

To assist importers who are interested in requesting the importation of plants for planting that are not allowed importation under the regulations in part 319, we are adding to this information collection a new form, Plant Protection and Quarantine Form 595, Request to Develop a Pest Risk Assessment for Plants for Planting. We estimate that this new form will account for 20 respondents, 20 total annual responses, 0.25 hours per response, and 5 estimated total annual burden hours.

We have also decreased the estimated total annual burden on respondents from 2,960 hours to 26 hours to more accurately reflect the total number of hours importers need to complete and submit a request to change the import regulations. Although the estimated annual number of respondents increased from 37 to 62, there has been a large decrease in the time (hours per response) that it takes for each respondent to prepare a request to change the import regulations. The hours per response decreased from 40 hours per response to 0.42 hours, which is a more accurate estimate.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.42 hours per response.

Respondents: Importers.

Estimated annual number of respondents: 62.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 62.

Estimated total annual burden on respondents: 26 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 28th day of April 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: International Trade Administration, Commerce.

Title: Domestic and International Client Export Services and Customized Forms.

OMB Control Number: 0625-0143.

Form Number(s): ITA-4096P.

Type of Request: Renewal submission.

Number of Respondents: 189,272.

Average Hours per Response: 10 minutes.

Burden Hours: 31,545 (annual).

Needs and Uses: The International Trade Administration's (ITA) U.S. Commercial Service (CS) is mandated by Congress to broaden and deepen the U.S. exporter base. The CS accomplishes this by providing counseling, programs and services to help U.S. organizations export and conduct business in overseas markets. This information collection package enables the CS to provide appropriate export services to U.S. exporters and international buyers.

The Commercial Service (CS) offers a variety of services to enable clients to begin exporting/importing or to expand existing exporting/importing efforts. Clients may learn about our services from business related entities such as the National Association of Manufacturers, Federal Express, State Economic Development offices, the Internet or word of mouth. The CS provides a standard set of services to assist clients with identifying potential overseas partners, establishing meeting programs with appropriate overseas business contacts and providing due diligence reports on potential overseas business partners. The CS also provides other export-related services considered to be of a "customized nature" because they do not fit into the standard set of CS export services, but are driven by unique business needs of individual clients.

The dissemination of international market information and potential business opportunities for U.S. exporters are critical components of the Commercial Service's export assistance programs and services. U.S. companies conveniently access and indicate their interest in these services by completing the appropriate forms via ITA and CS U.S. Export Assistance Center Web sites.

The CS works closely with clients to educate them about the exporting/importing process and to help prepare them for exporting/importing. When a client is ready to begin the exporting/importing process our field staff provide counseling to assist in the development of an exporting strategy. We provide fee-based, export-related services designed to help client export/import. The type of export-related service that is proposed to a client depends upon a client's business goals and where they are in the export/import process. Some clients are at the beginning of the export process and require assistance with identifying potential distributors, whereas other clients may be ready to sign a contract with a potential distributor and require due diligence assistance.

Before the CS can provide export-related services to clients, such as assistance with identifying potential partners or providing due diligence, specific information is required to determine the client's business objectives and needs. For example, before we can provide a service to identify potential business partners we need to know whether the client would like a potential partner to have specific technical qualifications, coverage in a specific market, English or foreign language ability or warehousing requirements. This information collection is designed to elicit such data so that appropriate services can be proposed and conducted to most effectively meet the client's exporting goals. Without these forms the CS is unable to provide services when requested by clients.

The forms ask U.S. exporters standard questions about their company details, export experience, information about the products or services they wish to export and exporting goals. A few questions are tailored to a specific program type and will vary slightly with each program. CS staff use this information to gain an understanding of client's needs and objectives so that they can provide appropriate and effective export assistance tailored to an exporter's particular requirements.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; and Federal government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: April 28, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

Foreign-Trade Zones Board

[B-27-2015]

Foreign-Trade Zone (FTZ) 154—Baton Rouge, Louisiana Notification of Proposed Production Activity Syngenta Crop Protection, LLC (Herbicides and Insecticides) St. Gabriel and Baton Rouge, Louisiana

The Greater Baton Rouge Port Commission, grantee of FTZ 154, submitted a notification of proposed production activity to the FTZ Board on behalf of Syngenta Crop Protection, LLC (Syngenta), located at facilities in St. Gabriel and Baton Rouge, Louisiana. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on April 22, 2015.

A separate application for subzone designation at the Syngenta facilities was submitted and will be processed under Section 400.31 of the Board's regulations. The facilities are used for the production of crop protection products including herbicides and insecticides, in retail packaging and bulk. Syngenta may produce its own products or provide contract manufacturing for other companies. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Syngenta from customs duty payments on the foreign-status components used in export production. On its domestic sales, Syngenta would be able to choose the duty rates during
