*Abstract:* On December 12, 2002, the Federal Reserve published a **Federal**

**Register** notice<sup>1</sup> adopting Regulation W (Reg W) to implement sections 23A and 23B. Reg W was effective April 1, 2003. The Board issued Reg W for several reasons. First, the regulatory framework established by the Gramm-Leach-Bliley Act<sup>2</sup> emphasized the importance of sections 23A and 23B as a means to protect depository institutions from losses in transactions with affiliates. Second, adoption of a comprehensive rule simplified the interpretation and application of sections 23A and 23B, ensured that the statute is consistently interpreted and applied, and minimized burden on banking organizations to the extent consistent with the statute's goals. Third, issuing a comprehensive rule allowed the public an opportunity to comment on Federal Reserve interpretations of sections 23A and 23B.

The information collection requirements associated with Regulation W comprise four notices: (1) The Loan Participation Renewal notice (12 CFR 223.15(b)(4)), which is a condition to an exemption for renewals of loan participations involving problem loans; (2) the Acquisition notice (12 CFR 223.31(d)(4)), which is a condition to an exemption for a depository institution's acquisition of an affiliate that becomes an operating subsidiary of the institution after the acquisition; (3) the Internal Corporate Reorganization Transactions notice (12 CFR 223.41(d)(2)), which is a condition to an exemption for internal corporate reorganization transactions; and (4) the Section 23A Additional Exemption notice (12 CFR 223.43(b)), which provides procedures for requesting additional exemptions from the requirements of section 23A. These notifications are event-generated and must be provided to the appropriate federal banking agency and, if applicable, the Federal Reserve Board within the time periods established by the law and regulation.

**Administration for Children and Families**

**Submission for OMB Review; Comment Request**

*Title:* Head Start Family and Child Experiences Survey (FACES).

*OMB No.:* 0970-0151.

*Description:* The Office of Planning, Research and Evaluation (OPRE),

Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing to collect data for a new round of the Head Start Family and Child Experiences Survey (FACES). Featuring a new "Core Plus" study design, FACES will provide data on a set of key indicators, including information for performance measures. The design allows for more rapid and frequent data reporting (Core studies) and serves as a vehicle for studying more complex issues and topics in greater detail and with increased efficiency (Plus studies).

The FACES Core study will assess the school readiness skills of Head Start children, survey their parents, and ask their Head Start teachers to rate children's social and emotional skills. In addition, FACES will include observations in Head Start classrooms, and program director, center director, and teacher surveys. FACES Plus studies include additional survey content of policy or programmatic interest, and may include additional programs or respondents beyond those participating in the Core FACES study.

Previous notices provided the opportunity for public comment on the proposed Head Start program recruitment and center selection process (FR V. 78, pg. 75569, 12/12/2013; FR V. 79, pg. 8461, 02/12/2014), the child-level data collection in fall 2014 and spring 2015 (FR V. 79, pg. 11445, 02/28/2014; FR V. 79, pg. 27620, 5/14/2014), and the program- and classroom-level spring 2015 data collection activities (FR V. 79, pg. 73077, 12/09/2014). This 30-day notice describes the planned data collection activities for a new Plus study: The American Indian and Alaska Native Head Start Family and Child Experiences Survey (AI/AN FACES), including fall 2015 activities of selecting classrooms and children for the study, conducting child assessments and parent surveys, and obtaining Head Start teacher reports on children's development.

AI/AN FACES fall 2015 data collection includes site visits to 37 centers in 22 Head Start programs to sample classrooms and children for participation in the study. Field enrollment specialists (FES) will request a list of all Head Start funded classrooms from Head Start staff and will ask for the teacher's first and last names, the classroom session type (morning, afternoon, full day, or home visitor), and the number of Head Start children enrolled in each classroom. Then for each selected classroom the FES will request the names and dates of birth of each child enrolled.
